2021 U.S. News: Best Graduate Nursing Schools - Contact Verification Survey

Introduction

Welcome to the *U.S. News & World Report* data collection system for the Best Graduate Nursing School's surveys. The purpose of this questionnaire is to collect and verify the contact information for those who will be survey recipients from your institution. In past years, we only used this questionnaire for the employer contacts. This year we are using it to verify the contacts of all three surveys that go into our Best Graduate Nursing School's ranking and publications:

1. Statistical Survey (est. launch early November)
2. Peer Assessment Surveys (est. launch early/mid November)
3. Employer Surveys (est. launch mid/late November)

We will use this information in the construction of a respondent sample for the three surveys listed above.

For more information on each of these surveys, please see their individual sections.

All of these surveys will be conducted electronically and will sent from the email, usnews-data-collection@biz-messaging.usnews.com (<mailto:usnews-data-collection@biz-messaging.usnews.com>). We highly recommend survey recipients add this email address to their email whitelist to prevent it from going into their spam folder.

We have rolled over the contacts you entered last year for the statistical and employer survey. We require a valid email address for all contacts provided on the questionnaire. If a valid email address is not provided for each record, then you will not be able to submit the survey. Before submitting the survey, be sure to print out a copy of the information you entered for your records. Once you submit the survey you will not be able to view the contacts at a later date. To submit your institution's contacts, click the "Submit" button on the last page of the survey.

Please verify all your data before submitting.

The survey is due on October 30th.

On behalf of all of us here at U.S. News & World Report and our readers, thank you for your participation in this questionnaire.

Statistical Survey Contacts

The following contacts will receive the U.S. News & World Report: Best Graduate Nursing Schools Statistical survey. **Statistical survey contacts can only be updated by your U.S. News Data Collector.** For their contact information, please click on the 'help' icon above. There is only one statistical survey per institution. All of the contacts below would have access to that survey. **Statistical survey contact changes will be made in our internal contact portal and will not be reflected in this survey.**

Peer Assessment Survey Contacts

The following contacts will receive the annual peer assessment survey of graduate nursing schools, where administrators rate other programs on scale of 1-5. In past years, these surveys were administered via paper ballot. This year U.S. News will be handling the data collection and the surveys will be conducted electronically. Each survey contact will receive their own peer assessment survey. Providing the following contact information is required for survey submission.

Employer Contacts

The purpose of this section is to gather complete and accurate contact information on employers who have significant contact in the workplace with, or have hired, your nursing programs' recent master's degree graduates. These can be people from hospitals, clinics, medical centers or other areas that employ your recent nursing graduates with a master's degree. These persons should be able to make judgments about the competence of your nursing master's degree graduates relative to the general field of nursing graduates with master's degree and hence, by extension, to rate the effective quality of your program. The survey will use the same Likert scale format that we use for the survey sent to the dean of your nursing school. Each survey contact will receive their own survey.

If you do not wish to provide employer contacts please skip these questions and submit your survey.
