As you come in, sit in
groups of four (4) people

Emily Gorman, MLIS

- School of Pharmacy Librarian
- What do I do?
 - Consult on and assist with finding information and articles for your coursework and research
 - Help you save time on citations
 - Generally answer any questions you have
 - Provide candy (if you visit my office hours!)

Today's Activities

- Introduction to library resources and services
 - By the end you should be able to:
 - Navigate the Pharmacy Subject Guide
 - Use OneSearch to locate a book owned by the library
- Introduction to drug information
 - By the end you should be able to:
 - Use various features of Micromedex to look up different types of drug information
 - Use various features of Lexicomp to look up different types of drug information

What is drug information?

- Facts or advice about drugs based on research evidence
- Found in:
 - Reference sources – Micromedex, Lexicomp, Sigler's drug cards, print books, government websites, etc.
 - Research literature – journal articles, conference presentations, etc.
- Basic vs. complex
- Do not Google!

Instructions

1. Split into groups of **four (4)** people.
2. Come up with a team name (**please be professional!**) and choose a team captain.
3. Send your captain down to the podium to write your team's name on the screen and collect answer sheets for your team.
4. Write your team's name at the top of your answer sheets for all four (4) legs of the race.

Rules

- There are 4 legs with 4 questions each. For each leg, you are only allowed to use the specified resource to answer the questions.
- Every team member must complete an answer sheet for each leg and your team captain must bring all answer sheets to an instructor for scoring. **Every team member's answer sheet must be filled out correctly before your team can receive the next set of clues.**
- The first three teams to correctly complete all four legs of the race will win prizes!

Feedback

- When your team has finished, please complete the below form to provide feedback on today's Amazing Race activity:

Wrap-Up

- Use OneSearch to locate print and electronic books
 - Library Catalog Only filter
- Micromedex and Lexicomp are great starting points for drug information and patient education materials
- If you don't remember everything, don't worry!
- Contact me if you have any questions:
