MEET THE GRADUATES

HUSAM ALBARMAWI

Doctor of Philosophy

"The ultimate measure of a man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge and controversy." – Martin Luther King, Jr.

Favorite Memory: Late pizza nights at the office!

Note of Thanks: I owe a debt of gratitude to my mentor, Dr. Onukwugha, who guided me through my PhD journey. I am also thankful to the PHSR faculty. Special thanks to my colleagues and friends who made this journey way less difficult. And, of course, I would not have completed my PhD without the support of my family and my wife.

Post-Graduation Plans: Currently, I work as an associate health economist at Genentech.

LAURA GRESSLER

My fiancé, Alan Baltz, for his continued love, commitment, and faithful support towards me. Finally, I would like to thank my parents, Dr. Regine Weinkauff and Dr. Volker Gressler, for providing both inspiration and example, generous financial support, emotional stability, and instilling in me a desire of higher learning for the advancement of knowledge. I am forever grateful to them for their unconditional love and their continued support in all my pursuits.
