Milford M. Foxwell, Jr, M.D.
1807 Hudson Road
Cambridge, MD 21613-3350

Dear Dr. Foxwell;

With great pleasure, the Woodward Award Committee of the Health Sciences Library has named you as the 2020 recipient of the Woodward Award. Established in 1995 and named for Dr. Theodore "Ted" Woodward, an ardent supporter of the library, this award recognizes an individual who enthusiastically and meaningfully advances and supports the work of the Health Sciences and Human Services Library.

The Committee, composed of past awardees plus Tara Wink, Historical Librarian and Archivist, and me unanimously endorsed you as the Award recipient. While the award is not necessarily given for support of the historical collections, your love of the University of Maryland's Medical School, its history, and your wise counsel to both Rich Behles and Tara Wink regarding historical materials has underpinned much of our thinking regarding the Health Sciences and Human Services Library's collection and preservation of historical materials. Recent donations of materials from your personal collection, especially class notes, has enriched our understanding of medical education, and will benefit scholars for years to come.

While we usually host a recognition event to celebrate the award, I am aware your health is compromised. I would be happy to come to Cambridge to deliver your award, mail it, or do whatever you wish regarding the award. I can be reached at 410.706.2693 or through email at mjtooley@hshsl.umaryland.edu to discuss your wishes.

Thank you again for all you have done to support our historical collections. We have deeply appreciated it. Congratulations!

Warm regards,

M.J. Tooley
