

The Center for Advanced Research Training & Innovation (CARTI) newsletter lists upcoming events, resources, services and grant deadlines for UMB research faculty and fellows. To register for CARTI's upcoming events, click [HERE](#).

## Highlights in this Issue:

### Special Announcement:

- [CARTI Welcomes New Director of Science Communication and Science Editor](#)

### Upcoming CARTI Seminars/Classes:

- [Funding Opportunities Through the US Department of Veterans Affairs](#) (May 3 @ 9am; Zoom)
- [Responding to Reviewers](#) (May 4 @ 9am; Zoom)
- ["Defining Your Next Research Project on Paper" Class](#) (May 10-31 @ 1pm; Zoom)
- [Developing Feedback Resilience as a Researcher](#) (May 16 @ 9am; Zoom)
- [Funding Success at the National Science Foundation](#) (May 17 @ 2pm; Zoom)
- [Getting Your Protocol Through the IRB](#) (May 30 @ 9am; Zoom)

### Additional Events & Services:

- [Scholarly Writing Accountability Groups \(SWAG\)](#): [New](#) 5-week option available this summer. Three new groups are starting June 8, June 9 and July 12.
- [iBiology](#): ["Strategies for Effective Public Engagement"](#) free, self-paced course
- [Office of Postdoctoral Scholars](#): [NIH Basics for Postdoctoral Fellows](#) (Jun 21 @ 12pm; HSF3)
- [UMSON, Research Seminar Series](#): [Research Integrity](#) (May 18 @ 12pm; Webex)

- *Society of Clinical Research Associates: Monthly Meetings*
- *UMSOM, Institute of Human Virology: Clinical Research Unit (Fee-for-service)*
- *UMB Graduate School: Applications are being accepted for: 1) Master of Science in Epidemiology and Clinical Research – Clinical Research Track 2) Certificate Program in Clinical Research 3) Clinical Informatics Certificate 4) Clinical Informatics (MS)*

**Funding Opportunities:**

- **Robert Wood Johnson Foundation** (*Health Equity Scholars for Action Program*)
- **Chan Zuckerberg Initiative** (*Measuring Metabolism Across Scales*)
- **Harrington Discovery Institute** (*Scholar-Innovator Award*)
- **SFARI/SIMONS Foundation** (*Cross-Species Studies of Autism Spectrum Disorders*)
- **Office of Naval Research** (*Young Investigator Program*)
- **Advanced Research Projects Agency for Health** (*research aiming to improve health outcomes across patient populations, communities, diseases, and health conditions*)

## SPECIAL ANNOUNCEMENT

### **CARTI Welcomes New Director of Science Communication and Science Editor**

The Center for Advanced Research Training and Innovation (CARTI) is pleased to announce that **Audrey M. Huang, MA, PhD** has been appointed as the new Director of Science Communication and Science Editor.

In this role, she will develop, manage, and teach seminars and workshops on scientific communication for the CARTI training track curriculum and professional development seminar series.

A molecular geneticist by training, Audrey has spent the past two decades in biomedical science and healthcare marketing and communications.

Most recently Audrey was Associate Vice President of Communications, Marketing and Public Affairs at UT Southwestern Medical center where she led a department of 75 and helped the organization navigate through the COVID-19 pandemic. Before that, she spent 16 years at Johns Hopkins where she concurrently led two award-winning teams for Johns Hopkins Medicine —Media Relations and Marketing and Communications for Research and Education—that successfully executed two Nobel Prize announcements as well as two of the institution’s largest ever press conferences in addition to doubling Johns Hopkins Medicine research news coverage and launching many successful initiatives that measurably expanded audience engagement.

For 15 years, Audrey also taught a grant writing course for Ph.D. candidates in the Johns Hopkins Cell, Molecular, Developmental Biology, and Biophysics graduate program, where many of her students

successfully won Ruth L. Kirschstein National Research Service Awards. She has also taught effective science communications to graduate students and postdoctoral fellows at the Johns Hopkins University School of Medicine and at Howard Hughes Medical Institute's Janelia Research Campus.

Audrey has written for organizations including the NIH, Carnegie Institution of Washington, Ontario Genomics Institute and the Pew-funded Genetics and Public Policy Center. She has been a member of the National Association of Science Writers since 2004.

Her research experience spans developmental biology, molecular and cell biology, and genetics, having studied the molecular mechanisms involved in muscle cell development at the Fred Hutchinson Cancer Research Center and mammalian embryonic development at Columbia University College of Physicians and Surgeons. Audrey studied chromosome structure and nuclear architecture in fruit flies and yeast during her postdoctoral training at the Carnegie Institution of Washington Department of Embryology. She holds a master's degree in science writing from Johns Hopkins University, a Ph.D. in molecular and cell biology and genetics and a B.A. in molecular and cell biology and biochemistry from the University of California at Berkeley. Her passion over the years has been mentoring students and staff and helping them launch their careers. She currently resides with her partner, Calvin, and their dogs and cats Emma, Busy Bee, Hans, Franz, Mama, Nestor, and Li'l G.

## CARTI's Upcoming Seminars

### Funding Seminar Series

#### **Funding Opportunities Through the US Department of Veterans Affairs (VA)**

**Wednesday, May 3**  
**9:00 – 10:00am**  
**Zoom**

The US Department of Veterans Affairs (VA) offers a number of funding opportunities available to faculty and postdocs. Dr. Ivey will introduce participants to the various types of grant applications available through the VA, including eligibility requirements, tips for applying, and insights into the review process.

**Speaker: Frederick M. Ivey, PhD**, Deputy Associate Chief of Staff for Research & Development, Baltimore VA Medical Center

[\*\*Register Now!\*\*](#)

**Funding Success at the  
National Science Foundation (NSF)**  
*Tips for Identifying the Right Funding Opportunity and  
Applying to the NSF*

**Wednesday, May 17  
2:00 – 3:30pm  
Zoom**

The National Science Foundation (NSF) is an independent federal agency and funds basic research and education in most fields of science and engineering. This seminar will focus on grantsmanship and funding opportunities offered by NSF.

Major subjects will include:

- The NSF's mission
- Identifying the right NSF funding opportunity
- Specific biology-related funding opportunities
- How to apply
- Elements of a competitive proposal
- NSF Review Process

**Target audience:** Faculty and senior postdoctoral fellows.

For more information on NSF funding, visit: <https://www.nsf.gov/funding/>

**Speaker:** Edda (Floh) Thiels, PhD, Program Director, Neural Systems Cluster, National Science Foundation

[Register Now!](#)

## Scientific Writing Seminar Series

### Responding to Reviewers

**Thursday, May 4  
9:00 – 10:00am  
Zoom**

The ability to effectively respond to reviewers is an important aspect of resubmitting a research paper and having it accepted for publication; however, this process can be a daunting task. During this session, participants will receive helpful advice on how to best respond to reviewers' comments when resubmitting a research paper.

**Speaker: Shannon Takala Harrison, PhD**, Associate Professor of Medicine and Epidemiology and Public Health; Head, Genomic Epidemiology Unit, Malaria Research Program; Center for Vaccine Development and Global Health; Track Leader, Molecular Epidemiology, Program in Epidemiology and Human Genetics; Associate Director for the CARTI Research Training Tracks, UMSOM

[Register Now!](#)

## Managing Your Research Program Seminar Series

### Developing Feedback Resilience as a Researcher

Tuesday, May 16

9:00 – 10:00am

Zoom

Researchers receive difficult feedback throughout their career, including after the review of a manuscript or grant, during a presentation, or during an annual review. While feedback is often intended to provide suggestions for improvement, it can be challenging to receive. This session will include a panel discussion on common strategies for interpreting and managing difficult feedback throughout your career, including suggestions for incorporating feedback to improve when appropriate.

#### Panelists:

**Tonya Webb, PhD**, Associate Professor, Department of Microbiology and Immunology, UMSOM

**Rosemary Kozar MD, PhD**, Professor of Surgery, Co-Director of Shock Trauma Anesthesia Research (STAR) Center, UMSOM

**Thomas Blanpied, PhD**, Professor, Department of Physiology, UMSOM

[Register Now!](#)

## Research Skills Seminar Series

### "Defining Your Next Research Project on Paper" Class

Wednesdays, May 10 - 31

*(4-week interactive class)*

**1:00 – 2:30pm**  
**Zoom**

The goal of this short, interactive class on “**Defining Your Next Research Project on Paper**” is for participants to turn their research question into a one-page summary of a new research project, which can be used to get feedback from mentors, collaborators, and/or a program officer. The class will focus on identifying and clearly communicating the gap in knowledge, central research question, hypothesis, and the significance of the proposed work. The class will end by using the developed summary to conduct an NIH Matchmaker search. NIH Matchmaker is a free, online searchable database which identifies similarly funded projects. Discussion will include how to identify the appropriate NIH Institute, funding mechanism, and program officer after completing an NIH Matchmaker search.

**This 4 week session will be held on Wednesdays from 1-2:30pm during May 10-31 via Zoom.** Please note: This course is limited to *faculty members only*. The class size is small, with a maximum of 8-10 participants. *Participants are required to attend 3 of the 4 sessions.*

To register or learn more, please email the instructor **Marey Shriver, PhD** at [mshriver@som.umaryland.edu](mailto:mshriver@som.umaryland.edu).

---

## **Getting Your Protocol Through the IRB**

**Tuesday, May 30**  
**9:00 – 10:00am**  
**Zoom**

This seminar will cover the basics of conducting human subjects research at UMB. Included within the discussion will be an introduction to the Human Research Protections Program (HRPP), the basics of conducting research at UMB, principal investigators' responsibilities, as well as a discussion of the Comprehensive Institutional Collaborative Evaluation of Research On-line (CICERO) program for submitting and reviewing human subjects research protocols. Recent changes to the federal regulations concerning human subjects research known as the “Common Rule” will also be discussed.

**Speaker:** **Jon Mark Hirshon, MD, MPH, PhD**, Chair, IRB; Professor, Department of Emergency Medicine; Professor, Department of Epidemiology and Public Health; CARTI Training Track Leader, UMSOM

[\*\*Register Now!\*\*](#)

## **Scholarly Writing Accountability Group (SWAG) Program**

**Virtual Program to Help Faculty Increase Their Scholarly Writing Productivity**

Are you struggling to find time to dedicate to your scholarly writing projects? Making time to write papers can be a challenging task as it competes with other faculty demands. To help UMB junior faculty meet this challenge, the **Center for Advanced Research Training & Innovation (CARTI)** provides a peer accountability/support program designed to increase writing productivity. This program is called **Scholarly Writing Accountability Group (SWAG)**.

### **New 5-week option this summer**

Due to busy summer schedules, CARTI is now offering a **5-week** SWAG Program to our faculty this summer.

### **What is a SWAG?**

A SWAG is an active peer-led writing group for UMB junior faculty who meet virtually for 1-hour, once a week. Groups follow a structured agenda including 15 minutes of updates and goal-setting followed by 30 minutes of individual writing and then 15 minutes of reporting and wrap-up. Each group is limited to 4-8 members who must commit to attending at least 4 out of the 5 weekly sessions. In a SWAG, there is no peer review of writing; SWAGs focus on the process of writing, not the content. *The purpose of SWAG is to help junior faculty get in the habit of 1) writing in short blocks of time daily or almost every day and 2) identifying and prioritizing feasible writing goals each week.*

### **What are the Benefits of Joining a SWAG?**

Faculty who join SWAG will:

- Develop new writing habits to achieve writing goals
- Improve time management skills
- Gain a greater sense of control over the writing process
- Build a small community of support/social network

### **Summer SWAG opportunities:**

- Thursdays 9-10am (June 8 – July 6)
- Fridays 12-1pm (June 9 – July 7)
- Wednesdays 3-4pm (July 12 – Aug 9)

**To join any of these groups, please complete the following request form online:**

<https://umbforms.wufoo.com/forms/request-to-join-swag>

**Questions? Email [Stacie Mendoza](mailto:Stacie.Mendoza)**

**CARTI'S Seminar Slides & Recordings**

## **Join CARTI's Microsoft Teams Page!**

This [page](#) serves as a hub for CARTI's seminar recordings and slides for the seminar series listed below:

- **Managing Your Research Program**
- **Scientific Writing**
- **Research Skills** (*grant writing, presentations, etc*)
- **Funding Seminar Series**
- **Introduction to Grant Writing**
- **Career Skills Short Seminar Series** (*30 minute lectures*)
- **Communicating Research Findings with a Broad Audience**
- **UM Ventures: Intellectual Property Protection, Commercialization, & Industry Partnerships**

To gain access, email [Stacie Mendoza](mailto:smendoza@som.umaryland.edu).

## **CARTI'S Individual Consultations**

### **Research Grant Application/Summary Statement Consultations**

**Christy Chang, PhD**, Senior Program Advisor, is available to meet with faculty to discuss writing their first R01 NIH application. Dr. Chang offers consultations regarding readiness and eligibility for R01 level funding, specific aims, and other elements of an R01 application. In addition, she is available to discuss strategies for addressing summary statements and revising research grant applications for resubmission. **Email:** [cchang@som.umaryland.edu](mailto:cchang@som.umaryland.edu)

---

### **Career Development (K) Grant Application/Summary Statement Consultations**

**Marey Shriver, PhD**, Executive Director for Faculty Development, is available to meet with junior faculty to discuss early project conception to the development of a complete NIH career development (K) application. Dr. Shriver offers consultations regarding developing a clear research question and testable hypothesis. In addition, she provides consultations regarding eligibility for K grant applications, planning for an upcoming grant proposal, and assembling a K application – including creating a training plan. Lastly, she is available to discuss strategies for addressing summary statements and revising research grant applications for resubmission. **Email:** [mshriver@som.umaryland.edu](mailto:mshriver@som.umaryland.edu)

---

### **Identifying Sources of Funding Consultations**

**Stacie Mendoza**, Program Director, assists junior faculty and postdocs with identifying sources of funding for their research. To schedule a funding consultation, complete the [Funding Search Request Form](#) online. **Email:** [smendoza@som.umaryland.edu](mailto:smendoza@som.umaryland.edu)

## CARTI'S Mini Library

The CARTI's "Mini Library" provides access to books that are relevant to developing the professional skills and success of an academic research career of SOM faculty.

A complete list of books can be found [HERE](#)

Books are available in the CARTI office located at *MSTF Building, Room 319* and can be signed out for up to 3 weeks. Email [Stacie Mendoza](#) if you would like to set up a time to visit our library.

## Science Communication Lab *iBiology Courses*

Are you looking to engage with the public more effectively? If so, **iBiology**, in collaboration with their colleagues at **Yale Ciencia Academy for Professional Development**, has announced the following new course:

### **"Strategies for Effective Public Engagement"**

Strategies for Effective Public Engagement is a FREE, 3-week course that will guide you through fundamental principles, skills, and strategies to succeed in your public engagement projects. Whether you are new to public engagement or simply want to improve upon what you have already accomplished, this course is for you!

Enrollment is open and the course is self-paced.

Visit their [WEBSITE](#) to learn more.

## Office of Postdoctoral Scholars

### **NIH Basics for Postdoctoral Fellows**

Wednesday, June 21

12:00 - 1:00pm

**HSRF 3, Room, Room 6020**

Understanding the NIH organizational structure, how to identify the right funding mechanism and funding announcement is an essential first step before applying for NIH funding. This session will provide an overview of the NIH grants process, as well as, helpful resources for first time grant writers not familiar with NIH funding. This workshop will cover topics including: an overview of the different NIH funding mechanisms (T, F, K, R); identifying Funding Opportunity Announcements (FOAs); using NIH RePORTER.

**Speaker: Marey Shriver, PhD**, Executive Director for Faculty Development, CARTI, UMSOM

[Register Now!](#)

## University of Maryland School of Nursing *Research Seminar Series*

### Research Integrity

Thursday, May 18

12:00 - 1:00pm

Webex

Please join the UMSOM's Office of Research and Scholarship as we host **Kaylin A. Adipietro, PhD**, research integrity specialist in the UMB Office of Accountability and Compliance. Adipietro will share information around research integrity and scientific misconduct.

[Register Now!](#)

## The Society of Clinical Research Associates (SOCRA) Baltimore Chapter

**The Society of Clinical Research Associates (SOCRA)** is a non-profit, charitable and educational membership organization committed to providing education, certification, and networking opportunities to all persons involved in clinical research activities.

The Baltimore Chapter's monthly meetings are open to the public and all are welcome to attend. Below is the topic for the next meeting:

**Assessment of “Soft Skills” in the Search for New Clinical Research Personnel**

**Wednesday, May 24  
12:00 - 1:00pm  
Zoom**

Please join the Baltimore chapter of the Society of Clinical Research Associates (SOCRA)'s May meeting. The chapter is hosting **Kylie Sands, MBA, CCRP**, Clinical Research Operations Manager at the Saint Lawrence Health Canton Potsdam Hospital and NYS SOCRA Co-Chair as she shares her expertise on assessing and applying the soft skills of entry level employees to determine position success and enjoyment.

[\*\*Register Now!\*\*](#)

## **UMSOM, Institute of Human Virology (IHV) Clinical Research Unit**

**Attention Clinical Investigators!**

### **Are you interested in Clinical Research? IHV can help!**

The **Clinical Research Unit** of the **Institute of Human Virology** is a complete fee-for-service research unit that can assist you in all your research goals.

- Start-up, contracting, IRB
- Study coordination
- Research visits requiring airborne isolation precautions
- Phlebotomy
- Lab processing, PBMC collection, storage and shipping

**Contact the CRU for more information:** 410-706-1684 or [\*\*Rchiu@ihv.umaryland.edu\*\*](mailto:Rchiu@ihv.umaryland.edu)

Please include a short description of the study of interest in any email.

## **UMB Graduate School**

Applications are being accepted by the UMB Graduate School for the following:

- **Master of Science in Epidemiology and Clinical Research – Clinical Research Track**
- **Certificate Program in Clinical Research**

Both are designed specifically to meet the needs of clinicians and scientists who want further education and training to develop a successful career as a clinical and translational investigator. Graduates will gain the ability to identify important clinical research questions, develop research protocols, generate pilot data, conduct clinical research, analyze and write the results in a publishable form and develop and submit grant proposals. Former students include faculty members (particularly those on or applying for career development awards), fellows, residents and medical and dental students.

Please see the details and application deadline for each below:

### **MASTER OF SCIENCE IN EPIDEMIOLOGY AND CLINICAL RESEARCH – CLINICAL RESEARCH TRACK**

- 30 credits
- Eligible for tuition remission
- Designed for clinicians and clinicians-in-training wanting to develop a successful clinical research career

**Early Admission Deadline:** March 1, 2023

**Final Application Deadline:** May 15, 2023

**For more information, visit the [WEBSITE](#)**

In particular, read the "Frequently asked questions" for each.

---

### **CERTIFICATE PROGRAM IN CLINICAL RESEARCH**

- 12 credits
- Eligible for tuition remission
- For clinicians and scientists who do not have time to do a full MS but need to gain skills not covered in their health profession or graduate education

**Early Admission Deadline:** March 1, 2023

**Final Application Deadline:** May 15, 2023

**For more information, visit the [WEBSITE](#)**

In particular, read the "Frequently asked questions" for each.

For an individual consultation on whether this training is appropriate for you, please contact **Jennifer Albrecht, PhD** at [jalbrecht@som.umaryland.edu](mailto:jalbrecht@som.umaryland.edu)

---

### **CLINICAL INFORMATICS CERTIFICATE & CLINICAL INFORMATICS (MS)**

Enhance your professional skills in Clinical Informatics with an online [12-credit graduate certificate](#) or the hybrid [34-credit Clinical Informatics MS](#). These programs are designed for physicians, nurses, pharmacists, other healthcare professionals, biologists, and computer scientists who are committed to improving the quality of patient care by analyzing information collected by healthcare organizations. Learn how to apply biomedical data, computational systems, and clinical process improvement to the practice of medicine, in order to enhance health outcomes, improve patient care, and strengthen the clinician-patient relationship. Applications are now open. **The deadline is July 1.**

## Funding Opportunities

### ROBERT WOOD JOHNSON FOUNDATION

#### 2023 Health Equity Scholars for Action Program

This program supports faculty at the Assistant Professor level, within 5 years from their terminal degree, who identify as members of systemically marginalized groups that are historically underrepresented in the research community (broadly defined).

In addition to mentoring and professional support, Scholars are awarded up to \$260,000 for 2 years which can be used to cover research expenses and up to 70% of the Scholar's salary.

An informational webinar is scheduled for **May 10, 2023**.

**LETTER OF INTENT DUE:** May 31, 2023  
Select applicants will be invited to submit full proposals.

Details, including registration for the informational webinar, are found here: [Health Equity Scholars for Action 2023 \(rwjf.org\)](#)

### CHAN ZUCKERBERG INITIATIVE Measuring Metabolism Across Scales

The Chan Zuckerberg Initiative aims to accelerate innovative discoveries in metabolism and metabolic physiology in health and disease. The long-term goal of this opportunity is to

### OFFICE OF NAVAL RESEARCH (ONR)

#### Young Investigator Program (YIP)

ONR's Young Investigator Program seeks to identify and support academic scientists and engineers who are in their first or second full-time tenure-track or tenure-track-equivalent academic appointment, who have received their PhD or equivalent degree on or after January 1, 2016, and who show exceptional promise for doing creative research. The objectives of this program are to attract outstanding faculty members of U.S. Institutions of Higher Education (hereafter also called "universities") to the Department of the Navy's Science and Technology (S&T) research program, to support their research, and to encourage their teaching and research careers. Individuals who are holding U.S. non-profit equivalent positions are also encouraged to apply.

Typical awards are \$750,000 over a 36-month period of performance. Applicants may request up to \$250,000 for each 12-month interval. These funds may be budgeted against any reasonable costs related to conducting the proposed research, for example, salary for the investigator, graduate student support, supplies, and applicable indirect cost. The total amount of funding available is \$18.75M, and ONR anticipates funding up to 25 applicants.

investigate the metabolic processes that maintain physiological homeostasis at the sub-cellular and cellular levels, and understand how and when these normal processes go awry.

**DEADLINE:** June 1, 2023

Visit the [WEBSITE](#) for more info

## **HARRINGTON DISCOVERY INSTITUTE**

### **Harrington Scholar-Innovator Award**

This scholar award recognizes outstanding physician-scientists whose work has the potential to advance standard of care. The selection committee seeks breakthrough discoveries defined by innovation, creativity and potential for clinical impact, including: discoveries deemed to address unmet medical needs; modulators of novel targets; potential to be developed into a commercial program; and strong intellectual property or protection strategy.

**LOI DEADLINE:** June 5, 2023

**APPLICATION DEADLINE:** August 7, 2023

Visit the [WEBSITE](#) for more info

## **SIMONS FOUNDATION AUTISM RESEARCH INITIATIVE (SFARI)/ SIMONS FOUNDATION**

### **Cross-Species Studies of ASD**

Grants awarded through the Cross-Species Studies of Autism Spectrum Disorders (ASD) are intended to support multi-disciplinary teams of PIs with expertise in both human and animal research to perform coordinated cross-species studies to advance our understanding of ASD-relevant behaviors and their underlying neurobiological mechanisms, with the potential for developing novel biomarkers or interventions.

**DEADLINE:** June 15, 2023

Visit the [WEBSITE](#) for more info

Please note that the applicants are **STRONGLY ENCOURAGED** to contact the appropriate Program Officer who is the point of contact for a specific technical area to discuss their research ideas before submitting a proposal. A list of technical areas specific to ONR Code 34 (Warfighter Performance) can be found at:

[Warfighter Performance | Office of Naval Research \(navy.mil\)](#)

**DEADLINE:** July 7, 2023 5:00 PM EST

Visit [WEBSITE](#) for more info

## **ADVANCED RESEARCH PROJECTS AGENCY FOR HEALTH (ARPA-H)**

ARPA-H opened its first Agency-wide Open Broad Agency Announcement (Open BAA), *seeking funding proposals for research aiming to improve health outcomes across patient populations, communities, diseases, and health conditions*. The BAA calls for proposals to outline breakthrough research and technological advancements.

ARPA-H held an informational proposers' day on April 4th to answer questions from potential proposers. View a [recording of the event](#) or the [slide deck that was presented](#).

**DEADLINE:** March 24, 2024

Visit the [WEBSITE](#) for more info

## Seeking Foundation Funding for your Research?

The SOM's Office of Development, Corporate and Foundation Relations, provides services and resources to assist UMSOM faculty with identifying private foundation funding for research, programs, educational initiative, and community outreach at the local, regional, and national level. **Visit their [website](#) for more information and to schedule an appointment.**

**Additional funding opportunities can be found at:**
