TO LICENSED PHYSICAL THERAPISTS:

At the 1961 Session of the General Assembly of Maryland, the Laws Governing the Practice of Physical Therapy in the State of Maryland were amended and are incorporated in the attached copy. A comparison of the text of this current copy of the law with the old law will show that the effects of the amendments enacted in 1961 were:

1. In Section 604, to update the definition of "physical therapy";
2. In Section 605, to simplify the definition of a "physical therapist" by referring to the definition of "physical therapy";
3. In Section 609, to set forth specific conditions under which a license may be refused, suspended, or revoked by the Board;
4. In Section 613, to increase the maximum fine for violations of the Physical Therapy Law.

I trust that you will find the copy of the law and this analysis of the changes informative and helpful.

Very truly yours,

CLEMENS W. GAINES,  
Secretary
