

From the A.P.T.A., Maryland Chapter to Board of Examiners

1. Why did the Board not notify us of the Hearing on Proposed Amendments that we had initiated?
2. Why were we not advised about the outcome of the Hearing as soon as the information was available so we could procede along any and all necessary avenues to secure the desired Legislation?
3. Why did the Board not notify us of the Health Act Revisions?
4. Why do Physical Therapists still come to work at Johns Hopkins Hospital without being notified that Maryland requires State licensure?
5. If the Physical Therapy Board feels that the matter of Mr. Spasoff doing all forms of physical therapy does not come under their jurisdiction, why is the matter not turned over to the Medical & Chirurgical Faculty as an infringement on the Medical Practice Act? He does not come under any exclusion clause in the Medical Practice Act.
