2. OTHER FACULTY

Please give, as of January 1978, the total number of full-time and part-time faculty members by their role and status. Also give the number of part-time faculty members in terms of their full-time equivalent (FTE, column 4). Part-time is defined here as less than the required hours for full-time employment as a faculty member. Full-time equivalent (FTE) is defined here as the number of hours worked by part-time faculty expressed as a fraction of the number of hours required of full-time faculty. For example, one "one-half time" faculty member and one "one-quarter time" faculty member are equivalent to three-fourths of a full-time faculty member. Do not count any person more than once. The administrator is reported in the above section and is not to be included with OTHER FACULTY.

5. DIRECT TEACHING LOAD OF FACULTY

In the table below, please provide the following information for the most recent week of regular instruction:

- column 1: course number or title of all courses taught by faculty;
- column 2: lowest class level of students who are permitted to enroll in the course;
- column 3: total number of students enrolled in all classes or sections of the course;
- column 4: number of actual hours each week that a typical class or section of the course was taught in the classroom setting;
- column 5: total number of full time (or full-time equivalent) faculty who taught any or all classes or sections of the course in the classroom setting;
- column 6: number of actual hours each week that a typical class or section of the course was taught in the clinical setting;
- column 7: total number of full-time (or full-time equivalent) faculty who taught any or all classes or sections of the course in the clinical setting. The same faculty counted in column 5 may be included here, if they appear in both settings.
