1971 Questionnaire to Graduate Programs for Professional Nurses

COPY FOR YOUR FILES

59-414-3

All information requested on this questionnaire pertains to graduate students (excluding doctoral students) who are enrolled in, or who have completed, master's programs which lead to a degree granted through the educational unit in nursing. Post-baccalaureate students who are enrolled in individual courses or extension courses should not be included unless they are matriculated in a specific program.

In this questionnaire spaces are available for you to write in the names of your programs when our categories do not fit them. Please do not write in the name of a program if one of our categories would serve the purpose for tabulating the results. For classification of full- and part-time students, use the policy followed in your university.

As you know, the results of this questionnaire serve many purposes. Your cooperation in filling it out is greatly appreciated.

1. Please check if you do not wish to have statistical information from this questionnaire published in printed media which identifies your school by name. (For example, information for Professional Nurse Traineeship Program)

5871

13-1

No Permission -2

2. How many graduate students received master's degrees during the period September 1, 1970 through August 31, 1971?

72 14-16

3. How many graduate students were enrolled in programs leading to a master's degree for the fall semester or quarter of 1971? (Each student should be counted only once.)

Full-time 175 17-19

Part-time 54 20-22

4. The enrollment data are for the fall semester of 1971, the graduation data for the period September 1, 1970 through August 31, 1971. Do not include any student more than once.

5971

PROGRAMS OFFERED	Number of individuals receiving master's degrees by program September 1, 1970 through August 31, 1971		Number of individuals enrolled in program leading to master's degree during fall semester 1971		
	Master's		Full-time	Part-time	
	14-16		17-19	20-22
