In the fall of 1958 a memorandum went to all schools of nursing from the departments in the NLN Division of Nursing Education that we would collect figures on enrollments, admissions, and graduations of men and Negro students every third year. This is the year for the collection of the data necessary to bring "Facts About Nursing" up to date. In addition, we would like to determine the number of Licensed Practical or Vocational Nurses who are entering schools preparing for R.N. licensure. Totals of the figures collected will be published, but individual schools will not be identified.

RE: NLN Annual Questionnaire on Enrollment

"It" has arrived and is due back by Nov. 15. I will need enrollment in all programs as of fall 1969 - full or part-time.

The information on graduations from Sept. 1968 through Aug. 1969 is available from Mrs. Howard's office on baccalaureate students (including RNs) but I will need help with masters graduates - classified by clinical field.
