1968 Questionnaire to Graduate Programs for Professional Nurses

All information requested on this questionnaire pertains to graduate students (excluding doctoral students) who are enrolled in, or who have completed, masters programs which lead to a degree granted through the educational unit in nursing. Post-baccalaureate students who are enrolled in individual courses or extension courses should not be included unless they are matriculated in a specific program.

In this questionnaire spaces are available for you to write in the names of your programs when our categories do not fit them. Please do not write in the name of a program if one of our categories would serve the purpose for tabulating the results. For classification of full- and part-time students, use the policy followed in your university.

As you know, the results of this questionnaire serve many purposes. Your cooperation in filling it out is greatly appreciated.

3071

1. May we publish information which you provide in this questionnaire in printed media (such as information for Professional Nurse Traineeship Program) identifying the school by name? Yes  13-1  
No  -2
2. How many graduate students received master's degrees during the period September 1, 1967 through August 31, 1968? 78 38-40
3. How many graduate students were enrolled in the educational unit in nursing in programs leading to a master's degree for the fall semester or quarter of 1968? (Each student should be counted only once.)  
Full-time 108 47-49  
Part-time 59 50-52
