NATIONAL LEAGUE OF NURSING EDUCATION

January 5, 1951

To the Director or Dean of the School of Nursing:

It is again time for us to collect our annual data concerning basic schools of nursing and nursing service. For legislation, mobilization, and other purposes, the League this year will need to obtain from each school additional information concerning the state of residence of all basic students enrolled. For your convenience, we are attaching a second form on which each state is listed. Will you please enter the number of students enrolled in your school who reside in each state.

We shall greatly appreciate it if you will please fill out and return one copy of both forms just as soon as possible.

Julia M. Miller, Executive Director

School of Nursing University of Md City Baltimore State Md  
Hospital University Daily average patients 441  
(excluding newborn infants)

- 1a. How many students were enrolled in your school for the basic program on January 1, 1951 177? (Include students in all years and those away on affiliation, but do not include students from other schools who may be affiliating with you). (See Form 2 attached).
- b. Of the total enrolled, how many were in the basic three-year diploma program ~~40~~ 13? How many have matriculated for a degree 40? 5 have 4 yrs
- c. How many of the basic students enrolled on January 1 were men 20? If you have none now, does your school accept men students 10 have?
- d. How many of the basic students enrolled on January 1 were Negroes 1? If you have none now, does your school accept Negro students 1? See Case U.S. Supreme Court.
- 2. Does your school offer to undergraduate students only a diploma program 0? Only a degree program 0? Or do you offer two programs to undergraduate students, one leading to a diploma and one leading to a degree 0? (check which)
