21st Annual Summer Institute in Nursing Informatics

Real Meaningful Use: Evolution or Revolution?

The Meaningful Use regulations for Electronic Health Records have sparked health care organizations and practitioners to think deeply about how information systems can be designed, implemented, and used to improve safety, quality, and efficiency of care while providing opportunities for patients to become full partners in that care. The Institute of Medicine, in *The Future of Nursing Leading Change, Advancing Health,* calls upon nursing—the largest segment of the nation's health care workforce—to practice to the full extent of their education and training and to create an information infrastructure to provide better data. The conference will offer opportunities for nurse informaticians, leaders, policy makers, and care providers to explore evolutionary work that is revolutionizing nursing care through technology.

Conference - July 20-23, 2011 • Preconference Tutorials - July 18-20, 2011

UNIVERSITY OF MARYLAND
SCHOOL OF NURSING

Summer Institute in Nursing Informatics (SINI)

Real Meaningful Use: Evolution or Revolution?

Preconference Tutorials

New preconference this year!

Revolutionary Informatics for the Nurse Executive

As nurse leaders strive to lead, adapt, and excel under the Meaningful Use requirements, there are resources, experts, and case studies that can help you in your plan of attack. This preconference for nurse executives will address challenges, demonstrate options, and outline solutions through case studies and interactive instruction.

Weekday Immersion in Nursing Informatics

This course focuses on practice trends and issues facing the informatics nurse and nursing profession, and enables individuals to complete a personal assessment of their knowledge, skills, and abilities to prepare for the ANCC Nursing Informatics Certification Exam.

Sponsors and Exhibitors: SINI 2011 presents a unique opportunity for organizations and vendors to take advantage of exclusive networking opportunities with nurse leaders in a relaxed atmosphere. The introduction of a special leadership preconference for nurse executives will provide even more access to key nurse decision makers at the 2011 conference. Please contact Christine Ward at cward006@son.umaryland.edu.

Webcast: Participate in SINI 2011 virtually via webcast. View live or archived plenary and concurrent sessions. Organize a webcast "MiniSINI" for colleagues in your location.

Location: University of Maryland School of Nursing

Details: For details on preconference tutorials, main conference schedule, fees, hotel accommodations, sponsor and exhibitor opportunities, and registration, visit the conference website: http://nursing.umaryland.edu/sini.
