

# NURSING INFORMATICS

## *Complete Your Advanced Degree!*

The University of Maryland School of Nursing (UMSON) continues to be the academic leader in the field of nursing informatics, as it has been for more than two decades. UMSON was the first nursing school in the world to offer a master's specialty in informatics and doctoral degrees with a focus in informatics. Our curriculum continuously evolves in response to emerging technology and the needs of the health care system.

### **Master's (MS) and Post-Master's:**

- MS: 40 credits
- Post-MS: 15-24 credits
- 31-credit Executive Plan of Study for those who already hold a BSN and an MBA or MHA
  - MS/MBA
  - Highly individualized course plans
    - Full-time or part-time
    - Wide range of electives
    - Comprehensive practicum
  - Preparation for certification by the American Nurses Credentialing Center or the Healthcare Information Management and Systems Society

*Full online option available*

### **Doctoral programs with a focus in informatics:**

- PhD
- Doctor of Nursing Practice

The Nursing Informatics MS specialty participates in the Academic Common Market, meaning that **students who reside in member states of the Southern Regional Education Board may request to pay in-state tuition if there is no nursing informatics program offered in a public university in their home state.**
