Re: Nurse Practitioner Certificate Programs

The post-master's NICU Nurse Practitioner program has been approved by the Curriculum Committee. Regina Cusson asked what the next steps should be to enable graduates to receive a Certificate which allows them to take the Certification examination and seek NP licensure from the Board of Nursing. I told her at least one of the steps would include submission of the shortened program to the Board of Nursing. But I do not know if you want approval of this (and other) post-master's programs by UMS and MHEC. I remember what Ernie Moreland said: we cannot issue a "Certificate" and advertise it as an official program without full approval. What should my next step be - Cheryl Samuels, George Marx?
