

The Order of Ceremony

Graduate School
University of Maryland
Doctoral Hooding Ceremony
4 p.m. Thursday, May 17, 2018
Southern Management Corporation Campus Center Ballroom
University of Maryland

Processional

Greetings

Jay A. Perman, MD
President, University of Maryland

Bruce Jarrell, MD
Dean, Graduate School

Roger Ward, JD, EdD
Vice President of Operations and Planning, Vice Dean of the Graduate School

Courtney Chandler
President, Graduate Student Association

Presentation of Dr. Patricia Sokolove Outstanding Mentor Award

Janelle Hauserman and Alyssa Grogan
Nominating Students

Dr. Aikaterini Kontrogianni-Konstantopoulos, PhD
School of Medicine
Outstanding Mentor Awardee

Presentation and Hooding of PhD Graduates

Mentors and Graduate Program Directors

Closing Remarks

Bruce Jarrell, MD

The Doctoral Degree

*D*octor means teacher or instructor; the term was used in ancient Rome to describe people who delivered public lectures on philosophical subjects. Since the 12th century, “doctor” has been a title of honor borne by men and women of great learning. It was first made an academic title at the University of Bologna in Italy, which received from the emperor the right to appoint *doctores legum* (doctors of laws).

The doctoral degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the professional or practitioner’s degree and the research degree. The former doctoral degree signifies advanced training for the practice of professions such as medicine, dentistry, pharmacy, or law. The latter type of doctoral degree, the research doctorate, is awarded to individuals who have undertaken prolonged advanced study on a subject and who have made substantial and original contribution to the knowledge concerning that subject in the form of an extensive written document, the dissertation. The degree confers the title of doctor of philosophy (PhD), although the degree no longer is associated with the study of philosophy specifically.

Academic Regalia

*T*he traditional black caps and gowns worn by students and faculty in the academic procession have been the costume of scholars since medieval times. A uniform code for academic costume was drafted by an intercollegiate commission in 1895 and has been adopted by the majority of colleges and universities in the United States. The gown or robe of the doctoral degree has a full, bell-shaped sleeve with three bars of velvet. The opening of the doctoral gown is faced with wide velvet bands that are either black or of a color indicating the wearer’s general field of learning. For the doctor of philosophy degree, robes have velvet of either black to match the gown, or blue representing the PhD degree.

The most colorful and distinctive item of the academic costume is the hood, which passes around the neck and extends down the back. The hood is hemmed in a bright or dark blue for the PhD degree. The colors of the silk lining exposed in the center of the hood are those of the college or university which conferred the degree. For the University of Maryland Graduate School, Baltimore, the hood is lined with black and gold. The doctor of philosophy candidates will receive their diplomas at the university commencement exercises.

The cap, or mortarboard, is uniform in design for all degrees. However, the PhD recipient may also wear an eight-sided tam. The tassel may be either black or gold for the doctoral degree. A person may tip the cap to show respect to a colleague. Additional medallions or decorative trim may be worn by individuals who have achieved specific honors.
