

Teaching Clinical Skills to Medical Librarians

April 3, 2009

8:30am – 4:00pm

Distance Learning Room

Health Sciences & Human Services Library

6 MLA CE Hours

Instructors:

Jennifer Lyon, MS, MLIS
Clinical and Bioinformatics Librarian
Eskind Biomedical Library
Vanderbilt University Medical Center

Rachel Walden, MLIS
Librarian
Eskind Biomedical Library
Vanderbilt University Medical Center

Course Description:

Continued education in medicine is essential to integrating the librarian more fully with medical teams and improving their understanding of the medical literature and how it applies to individual patient cases. The purpose of this course is to provide librarians with practical medical knowledge, focusing on information relevant to case histories, laboratory data and medical team discussions. Understanding medical concepts improves the librarian's abilities to communicate with physicians and patients, to read and understand the medical literature, and to relate clinical concepts in constructing a literature search.

Registration

MAHSL member \$50 (course would be \$250 at MLA!) _____ Non-MAHSL member \$75 _____
