

## Conference Overview & Objectives

### 26<sup>th</sup> Summer Institute in Nursing Informatics

From mastering the essentials of informatics to capturing, analyzing, and using information to enable care integration, SINI is the place to be. Known for providing unique networking opportunities with experts and leaders in informatics, the Summer Institute in Nursing Informatics exposes participants to innovations leading and supporting practice transformation.

### Conference Objectives

1. Describe the scope of nursing informatics and identify essential competencies for clinicians and informatics professionals.
2. Identify innovations in nursing informatics, technologies, and practice across the spectrum of care.
3. Explore the impact of informatics on quality, safety, and outcomes to include data analytics, meaningful use, consumer engagement, and EHR adoption.
4. Examine strategies for health information exchange and interoperability across systems and settings for coordination of care.

### Tracks

SINI 2016 features four educational tracks, including a special track designed specifically for the nursing informatics novice.

#### **Track A: Clinical Informatics: Essential Knowledge and Skillsets**

Offers an intensive overview of the field and opportunities from the University of Maryland School of Nursing's expert faculty and invited speakers. Designed specifically for the informatics novice, these sessions provide a solid foundation for enhanced learning.

#### **Track B: Innovative Health Care Informatics Across the Spectrum of Care**

Covers innovations that have been implemented and the benefits that have been realized. Innovations may involve, but are not limited to, patient generated data, personal health records, new ways of addressing old problems, new problems and innovative solutions, or new tools.

#### **Track C: Informatics Impact on Quality, Safety, and Outcomes**

Examines the impact of informatics and health information technology on quality and safety outcomes in health care settings. Leading-edge research and best practices on addressing data analytics, meaningful use, consumer informatics, and inter-professional collaboration will be presented.

#### **Track D: Health Information Exchange and Interoperability**

Offers an interactive deep dive at the expert level, exploring a community planning model as a foundation for bridging information gaps and addressing integration across care settings. Responding to The Interoperability Roadmap from the Office of the National

Coordinator, the model enables the inclusion of community and home, and clinical and social care in formal and informal settings.

**Poster Sessions** will provide further opportunities to cover peer-reviewed reports and discuss them with the authors. These sessions will take place from 8-8:45 a.m. and 4:15-5 p.m. on Thursday, July 21<sup>st</sup>.

### **Separate Networking Page**

Welcome Luncheon with round table discussions on hot topics

Location: Southern Management Corporation Campus Center

12:45 – 1:45 p.m.

Wednesday, July 20<sup>th</sup>

Networking Reception

History and tour of Davidge Hall, the nation's oldest medical school building

Location: University of Maryland Medical School

5:35-7:30 p.m.

Wednesday, July 20<sup>th</sup>

Buffet Luncheon during the Exhibitor Event

An opportunity to converse with colleagues and explore useful products and services.

Location: University of Maryland School of Nursing Lobby

12:45-2:45 p.m.

Thursday, July 21<sup>st</sup>

Social Event Reception

Location: Southern Management Corporation Campus Center

Big Mao, Trio

Music, food and networking.

5:15-7 p.m.

Thursday, July 21<sup>st</sup>
