# BETHANY CENTER

Bethany Center is a residential treatment program for men and women whose use of alcohol or other drugs is depriving them of the ability to lead productive and rewarding lives. A carefully planned and individualized treatment focus provides group therapy, individual counseling, family therapy, education, twelve-step programs, psychiatric and medical care, nutrition and fitness programs and continuing care.

The focal point of Bethany Center is a stately mansion restored to its original condition. Tree-lined walks, warmly decorated counseling and lounge areas, modern living and dining rooms, and a fitness center complex provide an environment that complements a structured therapeutic program.
