Re: Support of H.R. 736

Dear Senator Pine:

The American Physical Therapy Association of Maryland earnestly requests that your committee report favorably on H.R. 736.

Physical therapists are in full accord supporting this bill, which has also received approval from the Medical and Chirurgical Faculty of Maryland, and from the Maryland State Board of Physical Therapy Examiners.

The American Physical Therapy Association of Maryland believes that the clarification, updating and definition of the practice of physical therapy are urgently needed, and this bill will accomplish that purpose.

As Chairman of the Legislative Committee, I shall be glad to meet with your committee at any time to discuss the merits of this bill.

Your cooperation in this matter is sincerely appreciated.

Respectfully,

Florence P. Kendall
(Mrs. Henry O. Kendall)
