## Makers @ HS/HSL: Buttons for Public Health Outreach

<b>User:</b>	Alinka Kukin
<b>Affiliation:</b>	<a href="#">University of Maryland, Baltimore, School of Pharmacy</a>
<b>Project:</b>	Make buttons to promote "Vote and Vax"
<b>Used:</b>	Button maker, <a href="#">Canva.com</a>

Alina Kukin used the HS/HSL Innovation Space this past November to support [Vote and Vax](#). Vote and Vax is a national influenza prevention campaign, in which pharmacists provide flu vaccinations to community members at or near polling places. Alina designed multiple button graphics using [Canva.com](#) and assembled over 200 buttons using the Innovation Space's button maker.

The area's Vote and Vax locations included a polling station in Shady Grove and two Baltimore senior centers with nearby polling stations.

Ms. Kukin is a member the UMB chapter of the [American Society of Health System Pharmacists \(ASHP\)](#). Other student organizations that participated in the event were the [American Pharmacists Association \(APhA\)](#) and the [Student Section of the Maryland Public Health Association \(SMdPHA\)](#).

## New to the HS/HSL Innovation Space?

The Innovation Space is designed for innovative and collaborative hands-on learning experiences. It offers three 3D printers, two 3D scanners, over 3,500 video tutorials from [Lynda.com](#) (available on-site only), a plotter for [poster printing](#), Google Cardboard viewers, a large DNA model, two molecule kits, a button maker, and a 3D printing pen. The staff provides orientations as well as workshops on a regular basis for those who are new to 3D printing and 3D scanning.

For more information, visit our webpage at <http://www.hshsl.umaryland.edu/services/inspace/>.
