

# CRAFTS COMMITTEE

ANNUAL REPORT 1973-74

The Crafts Committee has just completed its first year. It was organized to serve as a creative outlet for all members of the Woman's Auxiliary Board and to provide craft articles for sale to the public and for distribution to patients. Meetings were held at various members' homes throughout the year.

A wide variety of items made by the members was sold through the Gift Shop. This included decorations and other seasonal materials at Christmas and Easter, flower arrangements and toys. A successful sale was held at the Board meeting on November 2.

Mrs. Judith Williamson of the Baltimore County 4-H Club was contacted and, through her cooperation, the members of this club have been providing dolls and toys for distribution to the children on the Pediatrics Service.

Respectfully submitted,

Grace L. Merlis, Chairman
