THE VOICE OF EMPLOYEE ASSISTANCE PROGRAMS

**NORTH AMERICAN CONGRESS

# THIS IS ONE OF MAN'S GREATEST RESTORATION PROJECTS.

Like most great works of art, mankind often needs restoration. Restoration from alcoholism and chemical dependencies of all kinds.

New Beginnings was created by Recovery Centers of America to restore one person at a time, one day at a time. And we're doing it through a national network of treatment centers specializing

in both inpatient and outpatient programs and comprehensive aftercare.

We offer the chemically dependent a renaissance of life, a chance at a New Beginning.

## Even if every treatment program were the same ... the results wouldn't be.

### We take a special approach to the problems of chemical dependency.

Not every patient can be treated the same. Each has their own problem. That's why the "cookie cutter approach" doesn't work. We believe in treatment programs that fit the individual.

Our programs are among the very best. We offer help for alcoholic and drug-dependent adults, adolescents, and their families. We provide: Primary Care, Intermediate Care, Family Care, and Aftercare. Special programs are also in place for the treatment of Cocaine Addicts, Chronic Relapse Patients, and for those requiring Crisis Intervention. Perhaps this is why *Family Circle Magazine* selected the program at Spofford Hall as "one of the nation's seven best."

Each of our facilities provides the patient with a tranquil setting in which to begin their recovery. For example, Spofford Hall is situated on a country lakeside; Conifer Park is nestled in the midst of 32 acres of wooded grounds; and Arms Acres is located high on a hill overlooking the rolling hills of New York state.

The very best programs ... tranquil settings ... and the understanding of the chemically dependent person and how to deal with their problems—it all adds up to something we call "special."
