Please select one.	52.38% 11	47.62% 10	0.00% 0	0.00% 0	21

Q3 Please rate the effectiveness of the speaker, Dr. Luana Colloca.

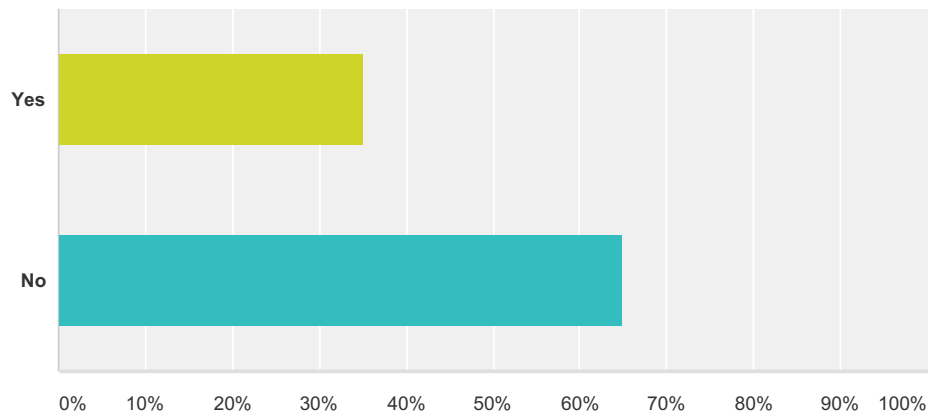

Answered: 20 Skipped: 1

	Strongly Agree	Agree	Disagree	Strongly Disagree	Total	Weighted Average
The presenter is an expert in the subject matter.	85.00% 17	15.00% 3	0.00% 0	0.00% 0	20	3.85
The presenter effectively communicated the educational content.	35.00% 7	65.00% 13	0.00% 0	0.00% 0	20	3.35
The presenter utilized effective active learning strategies.	55.00% 11	45.00% 9	0.00% 0	0.00% 0	20	3.55
The provided slides/handouts were useful.	47.37% 9	42.11% 8	10.53% 2	0.00% 0	19	3.37
This session was applicable to meeting your educational needs.	60.00% 12	40.00% 8	0.00% 0	0.00% 0	20	3.60

Q4 Was this presentation delivered with any commercial bias?

Answered: 20 Skipped: 1

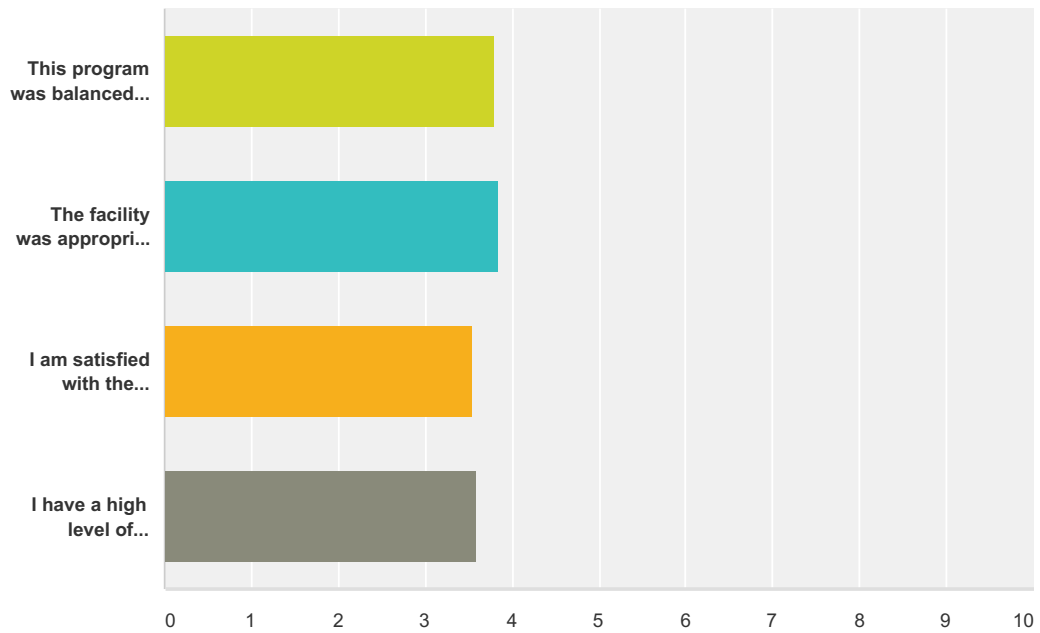

Answer Choices	Responses
Yes	35.00% 7
No	65.00% 13
Total	20

#	If you feel that any of the presentations were delivered with commercial bias, please explain.	Date
	There are no responses.	

Q5 Please indicate your level of agreement with the following statements.

Answered: 20 Skipped: 1

	Strongly Agree	Agree	Disagree	Strongly Disagree	Total	Weighted Average
This program was balanced and objective.	80.00% 16	20.00% 4	0.00% 0	0.00% 0	20	3.80
The facility was appropriate for the program.	84.21% 16	15.79% 3	0.00% 0	0.00% 0	19	3.84
I am satisfied with the overall program.	60.00% 12	35.00% 7	5.00% 1	0.00% 0	20	3.55
I have a high level of interest in these topics.	65.00% 13	30.00% 6	5.00% 1	0.00% 0	20	3.60

Q6 What did you learn from this program that you found most useful?

Answered: 20 Skipped: 1

#	Responses	Date
1	Reinforcement of the power of subjective believes.	2/20/2017 11:07 AM
2	new research into pain management	2/17/2017 12:01 PM
3	content	2/16/2017 1:51 PM
4	placebo effect is real	2/16/2017 10:04 AM
5	Implications of neurobiology in prescribing.	2/16/2017 9:50 AM
6	Neuro	2/16/2017 7:17 AM
7	The neurological connection	2/16/2017 5:40 AM
8	Mostly that this is being studied carefully and systematically.	2/16/2017 12:21 AM
9	That expectancy affects endogenous opioids, etc.. susceptibility to placebo may have a genetic marker. Not all are susceptible.	2/15/2017 4:05 PM
10	Didn't realize the qualitative influences of positive thought, placebo effect.	2/15/2017 2:28 PM
11	How much expectations play a role in pain sensations	2/15/2017 10:25 AM
12	.	2/15/2017 7:40 AM
13	endogenous factors	2/15/2017 7:28 AM
14	Expectancy and positive cues affects your perception of pain.	2/15/2017 7:12 AM
15	Placebo effect	2/15/2017 6:35 AM
16	Recent research in placebo. Excellent review of an important area.	2/14/2017 10:31 PM
17	Expectancy of pain relief helps in modulation of pain	2/14/2017 6:05 PM
18	Knowing that placebo does have effect on pain management .	2/14/2017 6:03 PM
19	The role of Oxytocin, DA & placebo.	2/14/2017 5:56 PM
20	The role of human interaction in creating positive expectancy.	2/14/2017 5:54 PM

Q7 List at least one way you plan to use knowledge gained from this lecture in your professional practice:

Answered: 20 Skipped: 1

#	Responses	Date
1	Encouraged client to believe on their medical treatment	2/20/2017 11:07 AM
2	try to understand why some people's pain medicine needs are greater than others	2/17/2017 12:01 PM
3	practice	2/16/2017 1:51 PM
4	order pain management consults	2/16/2017 10:04 AM
5	1. Evaluation 2. Treatment planning	2/16/2017 9:50 AM
6	Prescription	2/16/2017 7:17 AM
7	In my evaluation and prescribing	2/16/2017 5:40 AM
8	Helps me to better understand the effect of expectations and the importance of trying to inspire confidence. I'm not a prescriber, but do get involved in advocating and can see how important one's impression can be.	2/16/2017 12:21 AM
9	It is advisable to frame the patients expectations re: their pain relief, etc. in a positive fashion.	2/15/2017 4:05 PM
10	Remember that there are patients that are not influenced by placebo effect	2/15/2017 2:28 PM
11	As a graduate nursing student who graduates in May I believe being aware of this will greatly help my practice.	2/15/2017 10:25 AM
12	.	2/15/2017 7:40 AM
13	understanding the relationship between	2/15/2017 7:28 AM
14	Positive cues reinforcement techniques will be used	2/15/2017 7:12 AM
15	Use it for dual diagnosed clients	2/15/2017 6:35 AM
16	Plan a research program with colleagues.	2/14/2017 10:31 PM
17	Positive reinforcement to patients	2/14/2017 6:05 PM
18	I can apply the knowledge on my future care plan.	2/14/2017 6:03 PM
19	Avoid habit forming analgesics, when possible.	2/14/2017 5:56 PM
20	Present medication options to my patients with a more positive spin on expected outcome.	2/14/2017 5:54 PM

Q8 What could have made this program more effective?

Answered: 20 Skipped: 1

#	Responses	Date
1	better attendance	2/20/2017 11:07 AM
2	the speaker was a little hard to understand; perhaps she needed better audio	2/17/2017 12:01 PM
3	she was very hard to understand	2/16/2017 1:51 PM
4	she was very hard to understand	2/16/2017 10:04 AM
5	none	2/16/2017 9:50 AM
6	None	2/16/2017 7:17 AM
7	Thought it complete	2/16/2017 5:40 AM
8	I thought the audio was challenging. At times it was hard to understand what was being said. Think I missed a lot of the specifics.	2/16/2017 12:21 AM
9	If the slides could be seen better and had a bit less information on them. I would have loved to have these slides and a reference list so we could review the studies/articles.	2/15/2017 4:05 PM
10	Honestly had a hard time with the speakers accents. Also confused with some of the research tables and basic "lingo"	2/15/2017 2:28 PM
11	Perhaps making it an hour and a half long. I'm feel she had to rush a bit to fit everything in 1 hour.	2/15/2017 10:25 AM
12	.	2/15/2017 7:40 AM
13	na	2/15/2017 7:28 AM
14	unknown	2/15/2017 7:12 AM
15	Better communication with actual examples	2/15/2017 6:35 AM
16	N/A	2/14/2017 10:31 PM
17	Nothing	2/14/2017 6:05 PM
18	The lecture was running cery fast and i could catch up much info during lecture. If we could have a handout or even just a brief intro for the future lecture would be more helpful.	2/14/2017 6:03 PM
19	Link to the slides.	2/14/2017 5:56 PM
20	The speaker is wonderful and the lecture was extremely informative. A longer lecture!	2/14/2017 5:54 PM

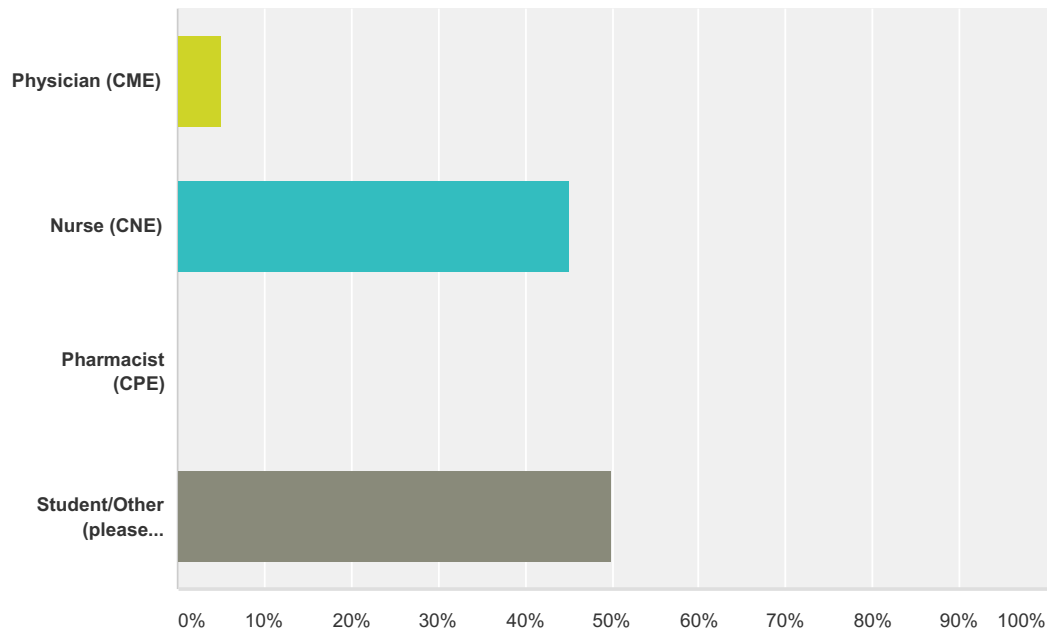

Q9 What other topics and/or speakers are of interest to you?

Answered: 20 Skipped: 1

#	Responses	Date
1	Continue with series.	2/20/2017 11:07 AM
2	medications for problems such as HTN, cardiac and sepsis	2/17/2017 12:01 PM
3	any pharm topic	2/16/2017 1:51 PM
4	any pharmacology lectures	2/16/2017 10:04 AM
5	Intersection of TBI, PTSD	2/16/2017 9:50 AM
6	PTSD	2/16/2017 7:17 AM
7	Intersection between PTSD and TBI	2/16/2017 5:40 AM
8	Have to think about it.	2/16/2017 12:21 AM
9	This was a great topic and very interesting. Would be great to see how this work could be specifically translated into clinical practice.	2/15/2017 4:05 PM
10	.	2/15/2017 2:28 PM
11	Improving communication among the different divisions in the Hospital to improve patient outcomes, primary prevention strategies, the effect of transfers in the hospital on patient outcomes.	2/15/2017 10:25 AM
12	.	2/15/2017 7:40 AM
13	more on pain	2/15/2017 7:28 AM
14	interprofessional pharmacy series.	2/15/2017 7:12 AM
15	Biological impact for the different type of medication	2/15/2017 6:35 AM
16	Other recent advances in pain management	2/14/2017 10:31 PM
17	unknown	2/14/2017 6:05 PM
18	It was good to know more drugs. Because I'm a first year nursing student, the lecture was really hard for me. But knowing more drugs will help my future study .	2/14/2017 6:03 PM
19	Neurology, pharmacology & psychology.	2/14/2017 5:56 PM
20	Anything neuro related!	2/14/2017 5:54 PM
