

Las Animas Hospital,

Havana, Oct. 20, 1901

My dear Jennie:

I write to say that my work is now about completed and I return home with certainty by the end of the month. My results are excellent and satisfactory and I have now five cases on my hands. I am preparing to close up and my results have been better than I dared to expect.

Do not write to me down here anymore as I am coming home for certain.

James.
