BALTIMORE COLLEGE OF DENTAL SURGERY

UNIVERSITY OF MARYLAND

Exhibit arranged and sketch printed by approval of the Board of Trustees of the
Grieves Foundation and the Dean of the Dental School, University of Maryland.

Baltimore, Maryland

May 8, 1935.

Most of you, perhaps, know the history of the library. But, for the newer members who may not, we would like to give you just a brief sketch.

The Maryland State Dental Association, wishing to honor one of its illustrious members, Dr. Clarence J. Grieves, founded a library—the Clarence J. Grieves Library Foundation—on May 4, 1926, and gladly accepted the invitation of the Baltimore College of Dental Surgery, Dental School, University of Maryland, to house it there. On October 11, 1926, the Dental School, University of Maryland, organized its library and, to promote a more economical and efficient administration, the two libraries were, by mutual consent, jointly housed. At that time the two libraries had 687 books and bound journals. At the present date there are 4,932 books and journals in addition to many unbound journals and pamphlets. The circulation has increased from 339 books circulated during the school year 1926-27 to 3,447 in the year 1933-34.

The library has been built by the State appropriations, the income from the Grieves Fund, a Carnegie grant in 1929, and gifts. The Grieves Fund has been used largely in purchasing old and rare books and pictures. The Carnegie grant enabled us to build up our journal files to such a degree that our library, one of the youngest among dental libraries, now ranks fourth. Since the Baltimore College of Dental Surgery was the first dental school in the world we should like to see our library rank first. We cannot reach this goal through State appropriations alone. We need duplicate material to make the library completely useful to the profession and the student body. We should like to have any material relating to dentists or dentistry which you wish to dispose of. If you cannot send or bring the material to the library we will gladly pay the carrying charges.

This exhibit from the library and brief sketch of its rapidly increasing scope and facilities are presented at this meeting with the hope that the number of members now using the library will be greatly increased.

SPECIAL COLLECTIONS

The library has the following special collections:

Dr. Clarence J. Grieves' personal dental library.

Dr. Chapin A. Harris, set of American Journal and American Library of Dental Science.

Etchings by Adelbert J. Volck, D.D.S., and a self-portrait on porcelain.

Photographs of the Maryland State Dental Association Presidents, 1883 to date.

More than a hundred dental texts published previous to 1850—including all three editions of the Fauchard 2 volume *Le Chirurgien Dentiste*.

CIRCULATION

All books, bound journals and pamphlets are circulated for a week with the privilege of renewal unless they have been reserved. Current journals are circulated for one night or from Friday until Monday.

CARD CATALOGUE

The library is now in the process of being catalogued according to the Library of Congress system.

BIBLIOGRAPHY

Through the use of Black's Index of Dental Periodical Literature the library is equipped to make or assist in making bibliographies on all dental and relative subjects.

HOURS

School Session:

Monday - Friday 9-5

Saturday 9-12:30

Summer Session:

Monday - Friday 9-4

Saturday 9-12
