DEMONSTRATOR OF MECHANICAL DENTISTRY.

SAMUEL T. CHURCH, M. D., D. D. S.

DEMONSTRATOR OF OPERATIVE DENTISTRY.

GEORGE R. WILSON,

JANITOR.

ANNOUNCEMENT.

The NINETEENTH Annual Session of the BALTIMORE COLLEGE OF DENTAL SURGERY, will open on the FIRST of OCTOBER, and close on the FIRST of MARCH. The Regular Course of Lectures will commence on the THIRD of NOVEMBER.

It is unnecessary to offer any arguments in support of Dental Collegiate Education. No longer an experiment, it has become, with the majority of the profession, an acknowledged necessity, and must ultimately be considered an indispensable prerequisite to the practice of Dental Surgery. The Faculty have endeavored to present a Course of Instruction, concise, comprehensive and practical; each year adding to their apparatus, and enlarging their curriculum of study, to meet the wants of an Art eminently progressive.

Anatomy, Physiology, Chemistry, &c. are not to be regarded as collateral (and, by inference, optional) branches; but as integral parts of Dental Science, a knowledge of which is absolutely essential to the correct practice of Dental Art.

The limits of studentship do not permit these to be taught in all their completeness as abstract sciences. But as "applied sciences" their several details are dwelt upon according to their relative importance in the specialty of Dentistry. The accompanying report of operations performed by students in the Infirmary will show that the necessity for actual practice as an element of instruction, is not lost sight of in the effort to impart the knowledge necessary for the guidance of that practice.

The Faculty have recently* been called to lament the death of Professor WASHINGTON R. HANDY. A most able, earnest and unweary teacher, he ever manifested the deepest interest in the students whom he taught, and the profession which it was his hope they would adorn. How faithfully he fulfilled the duties of his post, those best

know who are now reaping the benefit of his teachings—a faithfulness that contributed in no small degree to the fatal issue of his sickness. Of his personal character, and the high esteem in which he was held by all who knew him, this is scarcely the proper place to speak: but this brief tribute is due to his memory from colleagues with whom he has held for seventeen years an intercourse of unbroken harmony.

The chair made vacant by the decease of Professor HANDY has been filled by the appointment of A. SNOWDEN PIGGOT, M. D. late Professor of Anatomy and Physiology in the Washington Medical University.

COURSE OF STUDY.

PRINCIPLES OF DENTAL SCIENCE,

History of the origin and development of the teeth; ætiology, pathology and therapeutics of the teeth, gums, alveoli, maxillæ and antra, with a description of their morbid conditions and structural changes; defects of the palatine organs, salivary calculus, semeiology of the mouth, dental hygiene, &c. The lectures will be illustrated by numerous plates and morbid preparations.

PRACTICE OF DENTAL SURGERY,

Treatment of diseased teeth, gums and alveoli; prevention and treatment of salivary accretions; irregularities of the dental arch; treatment of dental caries; of exposed, inflamed and suppurating nervous pulp; extraction of teeth; pivoting of teeth; preparation of mouth for artificial substitutes; materials used in filling teeth; form, method of using and art of shaping and tempering instruments, &c. The principles and rules laid down by Professor HARRIS will be put in practice by the students in the Infirmary, under his direction, and the constant daily supervision of the Demonstrator of Dental Surgery.

PATHOLOGY AND THERAPEUTICS,

Principles of general pathology: special pathology, diagnosis and treatment of those diseases which involve the structures of the mouth

TWENTIETH SESSION, 1859-'60.

CHAPIN A HARRIS, M. D., D. D. S.
Principles of Dental Science and Theory and
Practice of Dental Surgery.

THOMAS E. BOND, JR., M. D.
Therapeutics and Materia Medica.

PHILIP H AUSTEN, M. D., D. D. S.
Mechanical Dentistry.

REGINALD N. WRIGHT, M. D.
Chemistry and Metallurgy.

A. SNOWDEN PIGGOT, M. D.
Anatomy and Physiology.

CHRISTOPHER JOHNSTON, M. D.
Microscopic and Comparative Anatomy of the Teeth.

FERDINAND J. S. GORGAS, D. D. S.
Demonstrator Mechanical Dentistry.

SAMUEL T. CHURCH, M. D., D. D. S.
Demonstrator of Dental Surgery.

WM. G. SMULL, M. D.
Demonstrator of Anatomy.

The Twentieth Annual Session will commence on the 4th day of October and close on the 1st of March.

The regular course of LECTURES will commence on the 1st of November.

The entire day during October, and the morning of each day during the rest of the session, will be devoted to Practical Dentistry and Anatomical Dissections.

The Infirmary has a large and rapidly increasing supply of patients, affording to the student unsurpassed facilities for the acquirement of a *practical* knowledge of every Operation in Surgical, Medical and Mechanical Dentistry.

Tickets for the Lectures, \$100. Matriculation Fee, \$5. Graduation Fee, \$30. Demonstrators' Tickets, \$20. Dissection Ticket, (optional) \$10.

For further information, address,

P. H. AUSTEN, DEAN OF THE FACULTY,

## FACULTY.

T. L. BUCKINGHAM, D. D. S.,  
 PROF. OF CHEMISTRY AND METALLURGY.

J. H. McQUILLEN, D. D. S.,  
 PROF. OF ANATOMY AND PHYSIOLOGY.

W. CALVERT, D. D. S.,  
 PROF. OF MECHANICAL DENTISTRY.

J. L. SUESSEROTT, D. D. S.,  
 PROF. OF PRINCIPLES OF DENTAL SURGERY AND THERAPEUTICS.

C. N. PIERCE, D. D. S.,  
 PROF. OF DENTAL PHYSIOLOGY AND OPERATIVE DENTISTRY.

~~~~~

D. H. GOODWILLIE, D. D. S.,
 DEMONSTRATOR OF OPERATIVE DENTISTRY.

J. J. GRIFFITH, D. D. S.,
 DEMONSTRATOR OF MECHANICAL DENTISTRY.

The regular Course will commence on the first Monday of November, and continue until the 1st of March ensuing.

During October, the Laboratory will be open, and a Clinical Lecture delivered every Saturday by one of the Professors, at 3 o'clock, P. M.

The most ample facilities are furnished for a thorough course of practical instruction.

Tickets for the Course, Demonstrators' Tickets included, \$ 100; Matriculation Fee, \$5; Diploma Fee, \$30.
