Subject: Working

Hello –

I usually have tons of notes of things to share but my list is pretty sparse today.

As usual, read the COVID update email that comes out on Fridays from UMB – always lots of good stuff.

I hope you have been noticing the new exhibit going up in the Weise Gallery and display case – Botanical Medicine. It focuses on our History of Pharmacy collection. We have some lovely images and quite an extensive collection. We need to have Tara give a presentation about some of the gems in our collection. Thanks to the Exhibits Committee for their idea and work on this. I basically walked through and told them “too high,” “crooked” – one look at their faces and I swiftly departed.

Annual Flu Clinic with SOP will be October 19th and 20th

Some building projects will be starting soon. The Grid should be put together. Planning is underway for the Verizon 5G Lab. I heard today that work will begin on the Center for Faculty Teaching and Learning which will be located in the space formerly occupied by the Counseling Center. And our roof and plaza are going to be replaced.

Remember to put any presentations into the Teaching Stats.

Congratulations to Tara for her selection into the UMBrella Coaching Program. Emily Gorman is the chair-elect (I think) of the AACP’s library section. Tony has been selected for the NLM/AAHSL Leadership Fellows Program.

The Annual Report Task Force is underway to create yet another innovative and informative annual report.

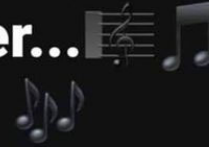

And we continue to try to figure out how to make the HSHSL building safer for our staff and users. Food and eating is the latest challenge.

Next week the Working email will be guest hosted by Tony – it will be a character building experience. The following week, Alexa will be the scribe. They have assured me the column will not be funny as they have no senses of humor. I will be out of the library until September 14 and only reading my email sparingly.

So I hope this humor holds you over for the next three weeks:

I just got my musician friend a 'get better soon' card. He isn't sick. I just think he can get better...

You know how they throw the ball into the crowd after they win the game? That's not allowed in bowling. I know that now.

Stay safe and well!

Best –
M.J.
