About Blessing

367 Bed Community Health System

2,000 Employees

240+ Physicians

Affiliates include:

- Illini Community Hospital (critical access hospital)
- Community Outreach Clinic
- Denman Medical Equipment
- Denman Biomedical
- Quincy Health Care Management
- Blessing Physician Services

Schools of Nursing, Radiology and Laboratory

*Blessing Hospital
ANCC Magnet Recognition*

IT Clinical Systems

Allscripts

- Sunrise Clinical Manager
- Sunrise Emergency Care
- Sunrise Medication Manager
- Sunrise Clinical Analytics
- Sunrise Disease Manager
- Enterprise Person Identifier
- Knowledge-Based Transcription
- KBC & Clinical Documentation
- CPOE housewide
- eLink
- Allscripts Ambulatory
- Sunrise XA 5.5
- Rothman Index

In Process (not all inclusive):

Allscripts

- Order Reconciliation & KBMA
- Sunrise Patient Access, Scheduling
Financial Manager & Record Manager

*McKesson

- Healthquest Patient Management
- Patient Accounting
- Medical Records
- Pharmacy Robot & AcuDose Cabinets
- Patient Scheduling & Compliance
- Horizon Surgery Manager
- Pathways HomeCare & Hospice

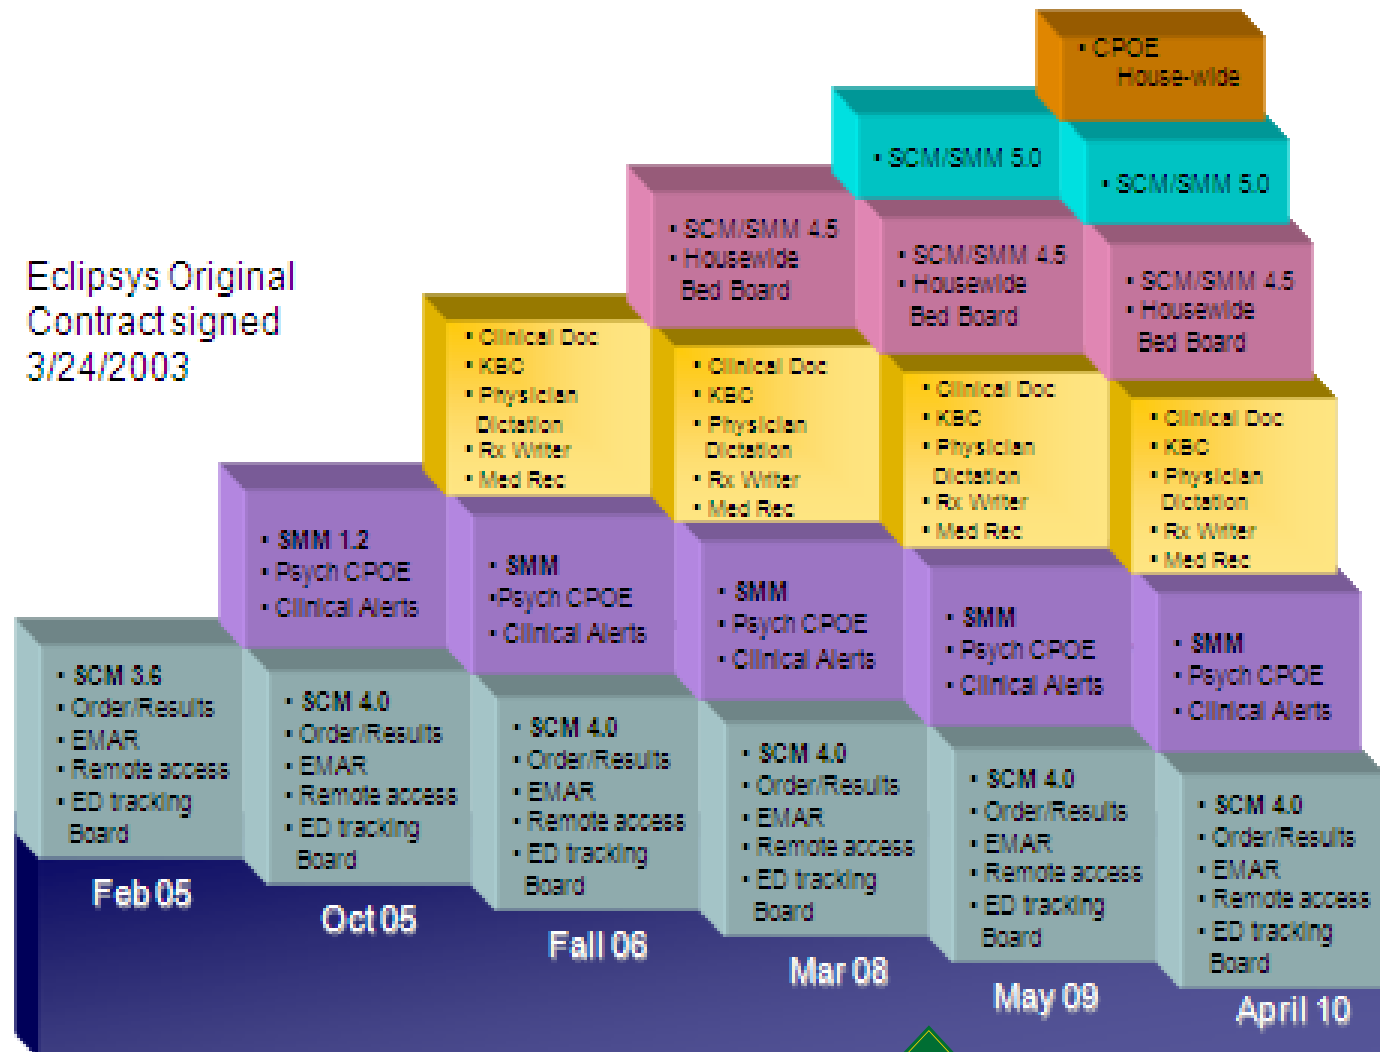

Other Vendors

- PACS/ScImage Image Distribution
- Sunquest & CoPath Lab
- Peritronics OB documentation system
- Phillips EKG system
- Apollo Cardiology Systems
- Cloverleaf Interface Manager
- Remote Access via Citrix
- ACTION O-I (Solucient)
- AtStaff Acuity/Staff Scheduling
- IMPAC Radiation Oncology
- Telemetry

Overall Journey

Blessing Hospital
ANCC Magnet Recognition

Vision Aligned With Our Projects

- ▶ Provider of Choice
 - Improved quality focus with evidence based practice
- ▶ Employer of Choice
 - Improved customer service
- ▶ Partner of Choice
 - Reduction in clinical practice variation
 - Increased Physician satisfaction

Blessing Hospital
ANCC Magnet Recognition

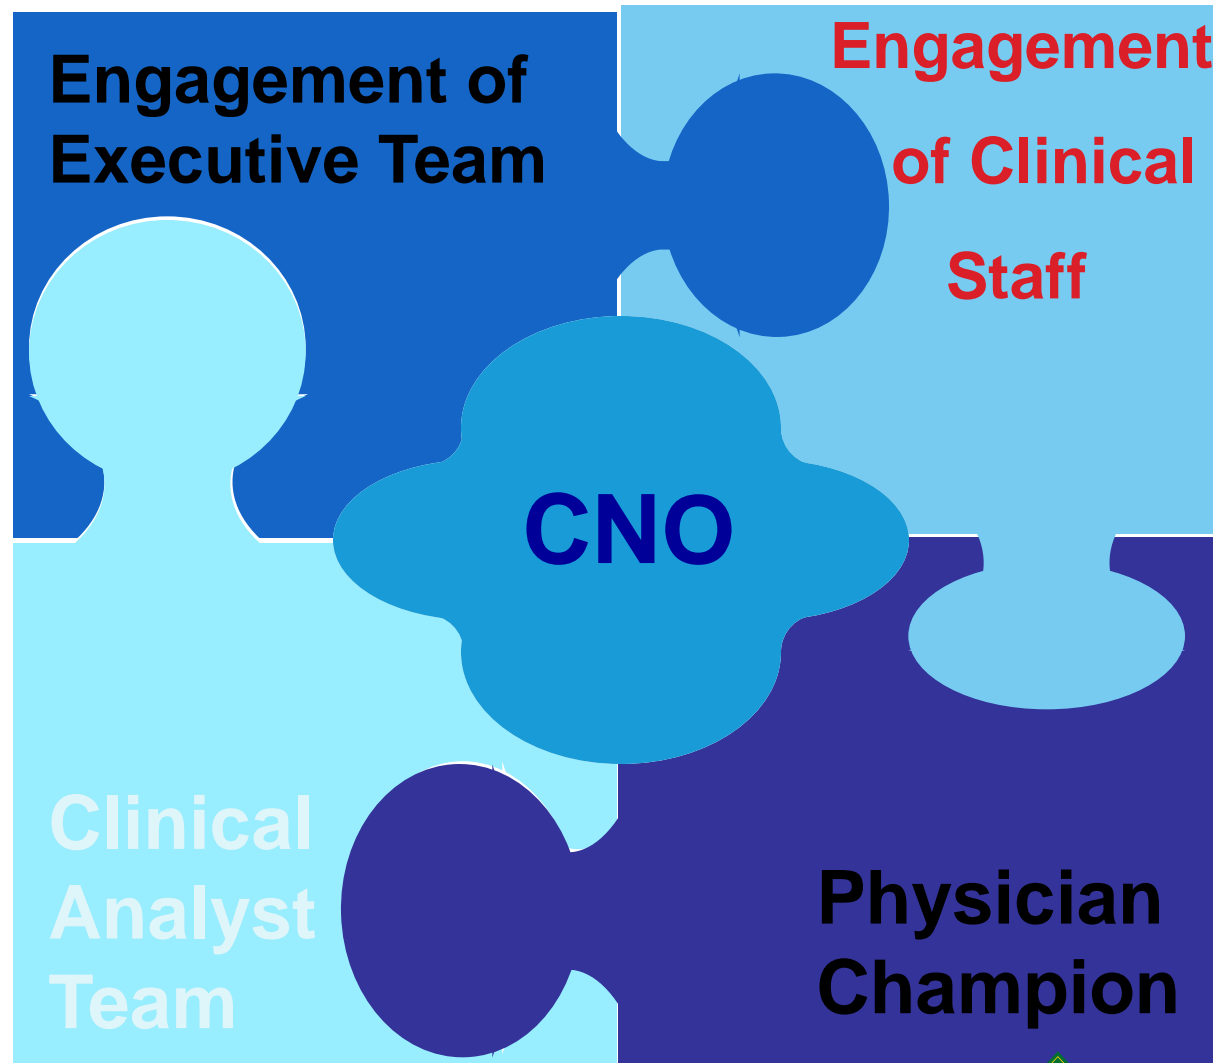

Leadership Philosophy

- ▶ Mission, Vision and values aligned with project
- ▶ Three primary goals
 - Improved quality with focus on
 - Patient Safety
 - Evidenced–Based practice
 - Outcome Management
 - Improved financial performance
 - Reduction in clinical practice variation
 - Reduction in clinical resource utilization
 - Improve data capture (*revenue cycle*)
 - Improved customer service (*value added physician service*)
 - Patient
 - Staff
 - Physician

Blessing Hospital

Staffing and Acuity

Supply of Nurses

- ▶ Staff Manager: Live May 2006, interfaced to HR and Time and Attendance

Demand of Patients

- ▶ Demand Manager measures need for nursing care hourly uses patient data from Registration and Sunrise Clinical Manager

▶ Outcomes Driven Acuity

- 7 Adult Med/Surg units live since July 2009
- Psychiatry, Pediatrics, and Behavioral Health

Blessing Hospital
ANCC Magnet Recognition

Standardized Outcomes

Outcomes: Patient outcomes sensitive to nursing interventions.

Nursing Outcome: An individual, family, or community state, behavior, or perception that is measured along a continuum in response to nursing intervention(s).

> 20 years of clinical and scientific testing at The University of Iowa

*Blessing Hospital
ANCC Magnet Recognition*

Nursing Outcomes Classification

- ▶ Data catalog file for adults contained over 175,000 line items
- ▶ Original mapped catalog items – 8,620
- ▶ Current mapped catalog items – 11,047

This report is used to validate the mapping of clinical documentation values to Likert scores at the outcome level. Nurses use it to evaluate the relationship between the outcome rating and the clinical documentation values received by patient. In the example below, the outcome "Discomfort Level" received a Likert rating of 1 based on receiving data on two indicators from clinical documentation—pain management and pain rating. ¶

Clinical Documentation Assessment by Patient

11/22/2010 14:45

JANE DOE: 0123456789
11/22/2010 12:26 - CVIUC
Percent Complete: 89%

Discomfort Level: 1

Age in Hours	Indicator Name	Indicator Score	Indicator Rank	Observation	Observation Value	Observation Score
12.43	2109 - Pain Management	5	5	Pain: Presence	denies pain/discomfort	5
9.93	2109 - Pain rating	1	1	Pain Intervention Number Scale	9	1

Kidney Function: 1

Age in Hours	Indicator Name	Indicator Score	Indicator Rank	Observation	Observation Value	Observation Score
16.43	0504 - Dialysis	2	2	Voiding Characteristics	patient on peritoneal dialysis	2
16.43	0504 - Fluid Management	3	5	Fluid Management	intravenous fluids adjusted	3
20.43	0504 - GU Assessment	1	1	Voiding Characteristics	anuria	1

Nutritional Status: Food & Fluid Intake: 2

Age in Hours	Indicator Name	Indicator Score	Indicator Rank	Observation	Observation Value	Observation Score
16.43	1008 - Diet	2	2	Diet/Nutrition Prescription	NPO	2
16.43	1008 - Nutritional Risk	1	5	Functional Screen Current Level: Swallowing	difficulty swallowing foods	1

Documentation Improvement

- ▶ **Free Texting: Opportunity To Reduce Free Texting**
 - Implementation lead to review of free text fields and identified holes in SCM documented fields
 - New fields added to give complete acuity assessment
- ▶ **Discovered Gaps in Documentation**
 - Patient Acuity assessment requires documentation on patient education and family participation
 - Allowed these Joint Commission required gaps to be identified and updated in SCM
- ▶ **Complete Documentation**
 - Patient Acuity requires a minimum of 70% complete documented assessment for a new Acuity score

*Blessing Hospital
ANCC Magnet Recognition*

Financial Outcomes

- ▶ RN Contract Hours Decreased
- ▶ RN Turnover Decreased
- ▶ RN Turnover Cost Decreased
- ▶ Hours per Patient Day Increased
- ▶ Incentive Bonus Pay Decreased

Clinical Documentation

- ▶ Implementation of Nursing & Ancillary clinical documentation using Allscripts Starter Sets.
- ▶ Started out with 45 documents, currently we have 250 documents on line for all areas & all specialties.
- ▶ Configuration of documents along with the use of Medical Logical Modules have allowed “hardwiring” of core processes to meet core measures.
- ▶ Clinical Summaries with ability of a quick glance improves handoff between staff.
- ▶ Reference wrenches providing online access to protocols, policies, & procedures, physician protocol information, & additional resource information.
- ▶ Images, including Radiology, Cardiac Cath Lab & EKG have been linked to the patient record within SCM for effortless access to images by the clinicians.

Blessing Hospital
ANCC Magnet Recognition

Clinical Documentation – Outcomes

- ▶ Joint Commission Survey 8 months post go-live with our initial implementation with excellent results. No issues related to clinical documentation were identified.
- ▶ Joint Commission Survey 2010.
- ▶ By use of the prescription writer & MLM from a structured note, the physician completes a medication structured note on admission that autofaxes to Pharmacy.
- ▶ Improvement of Core Measure Scorecard:
 - CHF Discharge Instruction – 100% compliant within 6 months.
- ▶ Using the Clinical Summary Tab developed multiple views to be used for professional exchange report between disciplines.

Blessing Hospital
ANCC Magnet Recognition

Next Steps

- ▶ OB Interfaces for L&D Record to integrate the delivery record with postpartum
- ▶ SIS – Surgery Information System to provide intraoperative and anesthesia documentation online
- ▶ Bed Board to improve Patient Flow
