"For I know the plans I have for you,' declares the LORD, 'plans to prosper you and not to harm you, plans to give you hope and a future.'" – Jeremiah 29:11

Note of Thanks: First, I want to thank God for providing me everything I ever needed to get me to where I am today! He never let me down and I'm forever grateful. Thank you Jesus! Next, I would like to thank all of my family members, who never gave up on me during these hectic years; my husband, Biniyam, who has always been by my side, my mom who sacrificed everything for my success, my dad who's always served my needs before his, and my kids, who have always been so patient with me. Thank you all for your love and support.

Post-Graduation Plans: After graduation, I will be pursuing PGY-1 training at Holy Cross Hospital. This will definitely help me explore my areas of interest for future practice. I'm currently interested in critical care, infectious disease, and

informatics, and I do hope to narrow them down and be able to identify my practice focus as I go through the program. As of now, my long term goal is to become a board certified critical care pharmacist.

FAVOUR KELECHI ELUMA

PharmD

Eleanor Roosevelt once said, "No one can make you feel inferior without your consent."

I've learned from day one in pharmacy school not to let anyone or anything intimidate me.

Not only was I tackling the challenges of graduate-level studies, but was living independently for the first time and figuring myself out as a 20-year-old.

These last four years allowed me to mature, develop, and experience so many things

I could only imagine for other people. I can say with confidence that I am ready to face new and exciting challenges that come my way.

Favorite Memory: My funny memories were the times my friends and I would study late either at the HS/HSL or at a study room at Fayette Square for the numerous finals we had our P1 year (both semesters). Half the time, we wouldn't even be seriously studying, but just discussing life, relationships, and ranting about school work and lack of time to do it all. The wasted time would raise our anxiety and we would get back to work studying only to return to ranting within 10 minutes.

Note of Thanks: I would like to thank my Lord and Savior, Jesus Christ, because he receives all the glory for every success that springs forth in my life. I would like to thank my parents, siblings, my pharmacy school friends, and non-pharmacy school friends. Additionally, I would like to thank my CPFI advisor, Dr. Mansour, for his undying support during my four years; my Johns Hopkins work manager, Paolo, who mentored me the last two years; APPE preceptors; upper and lower classmates for their encouragement; and fellow classmates for strongly finishing the journey together.

Post-Graduation Plans: I am humbled to start my PGY-1 residency at Novant Health Prince William Medical Center in Manassas, Virginia this summer. With successful completion of the program, I hope to be board certified and work as a clinical pharmacist or continue on to a PGY-2 in infectious disease. No matter where I end up, I will always hold on to Romans 8:28 which says, "And we know that in all things God works for the good of those who love him, who have been called according to his purpose."

"It always seems impossible until it's done." – Nelson Mandela

Favorite Memory: Walking to the library with friends, wishing good morning to the security guard who is always smiling, looking for a large sitting spot for all of us friends to fit in, getting a cup of matcha tea from the Culinart Cafe to survive the day, taking a nap on the cozy sofa of the library with a shawl over my head when days are long or during exams, and friends taking selfies and pictures of whoever is sleeping are my most favorite memories. This rollercoaster ride of PharmD school was fun and exciting because I had good passengers (friends) with me.

Note of Thanks: Thank you, mom, for calling every morning to wake me up when I slept through my alarm. Thank you, Dad and sis, for being there in the background whenever mom called me. Thank you, Sandip, for helping me and listening to all of my complaints/gossip. Thank you to my lovely housemates for taking good care of me when I got sick. Favorite Memory: After the first round of finals during P1 year, my friends and I were so tired that we sat down and leaned on each other. I remember feeling so loved and supported knowing that these were the people I would spend the next four years of my life with. We grew together, we suffered together, and we ate halal together. And this

experience would not have been the same without each of my friends from Kappa Psi, from my class, and from other class years being a part of my journey. #Pharmily

Note of Thanks: Thank you to my family and friends for praying for and supporting me throughout this journey. It has not just been the last four years, but I had the dream to become a pharmacist ever since middle school. I especially want to thank my parents for their support and for encouraging my dreams. I thank God for placing amazing people in my life, such as my late uncle, Pritam, and my late grandmother, Julia, who spent their lives serving others. I hope that I can inspire others as much as they have inspired me with their kindness and compassion.

Post-Graduation Plans: I am not exactly sure what I will be doing after graduation. I'm still in the process of looking for employment. But, I am passionate about health education and disease prevention, so I hope to be working with underserved patient populations to provide medication education and quality health care. I also hope to promote pharmacy on a global scale, and take my drug knowledge back to India (where my parents are from) to advocate for better healthcare there.
