

Hello again,

Since all trash collectors have done it, here is my list of finds:

Most frequent: whiskey bottles, from pints to miniatures (There is a liquor store in the shopping center just across the corner of Marriottsville and Liberty Rd. so that must explain it).

Most challenging to collect: the glass pieces of four of these whiskey bottles which were broken.

Interesting and fairly frequent: cigar bags (There is also a cigar store across the corner of Liberty Road).

COVID-related finds: plastic gloves and pieces of gloves

Most interesting find: cardboard graduation cap - sigh...

I also ran into a neighbor, who said that for some time he had a garbage can by the sidewalk and it would fill up. Until one day someone took the garbage can. He thanked me.

That's all,

María

I was into trash collecting too. On top of the collected trash is a cardboard graduation cap, as in cap and gown.
Representative of the times we are living.

Lot's of great initiatives!
