### Center of Excellence in Regulatory Science and Innovation

James Polli, PhD, Co-director

### Center on Drugs and Public Policy

Francis B. Palumbo, PhD, JD, Executive  
Director

### Computer-Aided Drug Design Center

Alexander D. Mackerell Jr., PhD, Director  
Jana Shen, PhD, Co-director

### Maryland Poison Center

Bruce D. Anderson, PharmD, Director

### Mass Spectrometry Center

Maureen Kane, PhD, Executive Director

### Mental Health Program

Raymond Love, PharmD, Director

### Metallotherapeutics Research Center

Sarah Michel, PhD, Co-director  
Angela Wilks, PhD, Co-director

### Peter Lamy Center on Drug Therapy and Aging

Nicole Brandt, PharmD, MBA, BCPP, CGP,  
FASCP, Executive Director

### Pharmaceutical Research Computing

Ebere Onukwugha, PhD, MS,  
Executive Director

## BOARD OF VISITORS

### Stephen J. Allen, RPh, MS '78, FASHP, Chair

Former CEO, American Society of Health-  
System Pharmacists Foundation

### Barbara M. Alving, MD, MACP

Professor of Medicine, Uniformed Services  
University of the Health Sciences  
Research Professor, University of Maryland  
School of Public Health

### John Banta, MBA

Executive Director, BlueCross BlueShield  
Association  
Managing Director, BlueCross BlueShield  
Venture Partners

### Harold E. Chappelle, DSC '98, RPh, LLD (Hon.)

Principal, InternaSource, LLC

### Victoria G. Hale, BSP '83, PhD

Founder & Former CEO

**Cynthia Boyle, PharmD '96, FAPhA**  
**Professor**  
**Department of Pharmacy Practice and Science**

Boyle earned her Bachelor of Science in pharmacy from the University of Oklahoma College of Pharmacy and her Doctor of Pharmacy from the University of Maryland School of Pharmacy. During her career, she has practiced in community, health system, and consultant pharmacy settings. Prior to rejoining the School of Pharmacy in 2017, Boyle served as chair of the Department of Pharmacy Practice and Administration at the University of

Maryland, Eastern Shore School of Pharmacy and Health Professions, where she also was interim dean from 2014 to 2015. Until 2011, Boyle was the executive director of the Experiential Learning Program and an associate professor in the Department of Pharmacy Practice and Science at the University of Maryland School of Pharmacy. She is a leader in pharmacy education, a past president of the American Association of Colleges of Pharmacy and the Maryland Pharmacists Association, which honored her with its Seidman Distinguished Achievement and Bowl of Hygeia awards. Boyle also was recognized with the Maryland Society of Health-System Pharmacy's W. Arthur Purdum Award for influential leadership. She received the American Pharmacists Association Good Government Pharmacist of the Year and Daniel B. Smith awards and twice received the Phi Lambda Sigma National Leadership Award. Boyle has taught a course on effective leadership and advocacy for almost two decades and has mentored faculty at other schools to develop similar courses.

**Wendy Camelo-Castillo, MD, MSc, PhD**  
**Assistant Professor**  
**Department of Pharmaceutical Health Services Research**

Camelo-Castillo trained as a physician at the Universidad Nacional de Colombia, where she also obtained an MSc degree in physiology. Her PhD training in epidemiology at the University of North Carolina at Chapel Hill focused on pharmacoepidemiology, after which she joined the University of Maryland School of Pharmacy as a postdoctoral fellow in patient-centered outcomes and comparative effectiveness research. Her

research focuses on improving methods to assess effectiveness of treatments in the context of multimorbidity, and the development and implementation of patient-centered methods to address health

disparities in minority communities. Her research integrates methods in pharmacoepidemiology and patient preferences to develop evidence for populations in whom best practices of care are limited, such as women, youth, and minority communities. Camelo-Castillo's goal is to inform and improve clinical and policy decision-making by providing evidence of benefits or harm of interventions used in real-world settings in these populations. She brings an innovative approach into this work by integrating the patient perspective into pharmacoepidemiology and health services research.

**Megan Ehret, PharmD, MS, BCPP**  
**Associate Professor**  
**Department of Pharmacy Practice and Science**

Ehret completed her Bachelor of Science and PharmD degrees from the University of Toledo. She then completed a residency in psychiatric pharmacotherapy at the Louis Stokes Veterans Affairs Medical Center, after which she completed a fellowship in psychopharmacology and pharmacogenomics at Nova Southeastern University. After training, she joined the faculty at the University of Connecticut School of Pharmacy and gained tenure

during her time there. While at the University of Connecticut, Ehret served as vice chair of the Institutional Review Board, director of practices for the Center for Correctional Health Networks, and as a faculty member for Project ECHO: Buprenorphine. Ehret also received a master's in clinical and translational research from the University of Connecticut Health Center and is a board-certified psychiatric pharmacist. Most recently, Ehret has practiced at Fort Belvoir Community Hospital as its behavioral health clinical pharmacy specialist. She has experience in treating the spectrum of mental illnesses and substance use disorders. Additionally, she is president of the College of Psychiatric and Neurologic Pharmacists and serves as senior editor for its Psychiatric Pharmacotherapy Review Course. Her research interests include precision medicine, including utilization of guideline-based treatment and pharmacogenomics, utilization of long-acting injectables, psychotropic medication adherence, and the role of the psychiatric pharmacist on the treatment team.

**Stormi Gale, PharmD, BCPS**  
**Assistant Professor**  
**Department of Pharmacy Practice and Science**

Gale obtained her Doctor of Pharmacy from Wingate University in North Carolina. She completed a pharmacy practice residency at Novant Health Presbyterian Medical Center in Charlotte, N.C., and a cardiology specialty residency at the University of Maryland School of Pharmacy. She is a board-certified pharmacotherapy specialist and serves as a cardiology pharmacy specialist on the advanced

heart failure service at the University of Maryland Medical Center. Gale's practice and research interests include management of advanced heart failure, cardiovascular risk reduction, and interprofessional education. She is a member of the School of Pharmacy's Applied Therapeutics, Research, and Instruction at the University of Maryland (ATRIUM) collaborative, which focuses on the advancement of care provided to patients with cardiovascular disease.

**Lisa Jones, PhD**  
**Assistant Professor**  
**Department of Pharmaceutical Sciences**

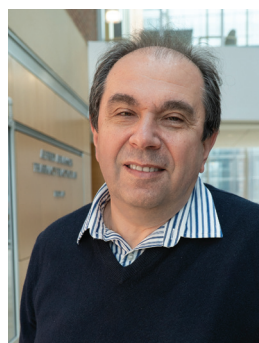

Jones received a Bachelor of Science in chemistry from Syracuse University and a PhD in chemistry from Georgia State University. She did her postdoctoral training in the Department of Microbiology at the University of Alabama-Birmingham and then moved to a second postdoctoral position in the Department of Chemistry at Washington University in St. Louis.

Jones' research program focuses on the development of novel protein footprinting methods coupled with mass spectrometry to study protein structure. She is especially interested in using these methods to study protein structure directly in cells and in an animal model for human disease to provide a detailed view of protein interactions in their native biological environment. Jones is a member of several organizations including the American Society for Mass Spectrometry (ASMS), the American Chemical Society, and the Biophysical Society. In addition, she is the treasurer for the Biophysical Society Molecular Biophysics subgroup and is a member of the ASMS Diversity Committee. She is currently serving as a member of the Editorial

Advisory Board for the *Journal of Proteome Research*. Jones was the recipient of the International Association for Protein Structure Analysis and Proteomics 2017 Distinguished Young Investigator Award and is co-director of the Meyerhoff Graduate Program.

**Marc Taraban, PhD, MS**  
**Research Assistant Professor**  
**Department of Pharmaceutical Sciences**

Taraban received a master's in science in physical chemistry from Novosibirsk State University and a PhD in chemical physics from the Russian Academy of Sciences, Institute of Chemical Kinetics & Combustion. His pioneering research in the Laboratory of Magnetic Phenomena used methods of chemically induced dynamic nuclear polarization to observe organometallic intermediate species and magnetic

field effects on enzymatic reactions for the first time. As a visiting assistant professor at the University of Utah, Taraban continued his research on mechanisms of enzymatic processes using spin chemistry techniques and expanded his focus to structural determination of biomacromolecules and polymers using small angle X-ray scattering (SAXS). At the University of Maryland, College Park, he created new force-sensitive nano-networks from soft and wet viscoelastic materials assembled from peptides and other biopolymers to construct injectable and biodegradable mechanosensors and drug release matrices to aid the repair and rehabilitation of damaged musculoskeletal tissues. His current research investigates the water relaxation rate as a probe for noninvasive characterization of biopharmaceuticals. More generally, Taraban is interested in applications of modern biophysical and structural biology methods (e.g., dynamic light scattering, microflow imaging, SAXS and small-angle neutron scattering) to study the structural characteristics and conformational dynamics in biopolymers, molecular assemblies, and dendrimers. He holds an issued patent for noninvasive analytical technologies.

**Erin VanMeter, PharmD, BCACP**  
**Assistant Professor**  
**Department of Pharmacy Practice and Science**

VanMeter received her Doctor of Pharmacy from the Shenandoah University Bernard J. Dunn School of Pharmacy. She completed a postgraduate year one pharmacy practice residency at the Martinsburg (W.Va.) Veterans Affairs Hospital and a PGY2 ambulatory care residency at the Baltimore Veterans Affairs Medical Center. After completion of her residency, VanMeter took a

position with the Ohio State University Wexner Medical Center, where she worked in an anticoagulation clinic and implemented clinical ambulatory care pharmacy services in a physician-owned primary care group. She joined the University of Maryland School of Pharmacy in October 2017. VanMeter practices as an ambulatory care clinical pharmacy specialist at multiple Johns Hopkins community physician sites in the greater Washington region and the Interprofessional Care Transitions Clinic at the University of Maryland Prince George's Hospital Center. Her research interests include clinical outcomes in chronic disease management, practice-based research, patient counseling and education, vulnerable populations, and interprofessional education.

**Ester Villalonga-Olives, PhD, MsC, BSc**  
**Assistant Professor**  
**Department of Pharmaceutical Health Services Research**

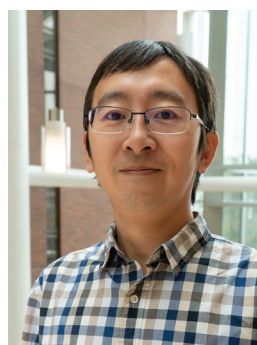

Villalonga-Olives is a social epidemiologist who holds a PhD in biomedicine. She completed BSc and MsC degrees in sociology and health at the University of Barcelona and received a PhD with international doctor distinction from Universitat Pompeu Fabra. During her PhD studies, she received an award from the Spanish Society of Epidemiology to study at the European Epidemiology

Program in Florence, Italy, and performed on-site public health interventions serving non-governmental organizations in India and Cuba. Villalonga-Olives has been a research scientist in the Department of Medical Psychology and Medical Sociology at the University Medical Center of the Georg-August-University of Gottingen in Germany. She served as a teaching and research fellow at Harvard University's T.H. Chan School of Public Health, where she is a visiting scientist, and has been a guest lecturer at

Yale School of Public Health. She is the past president of European Young Epidemiologists (2010-2014), a previous European delegate of the Early Career Epidemiologists worldwide group, and a member of the International Epidemiology Association board. Villalonga-Olives' research interests are related to the study of the social determinants of health, with an emphasis on social capital and health inequalities and a focus on the design of health interventions. She is a psychometrician and works with patient reported outcomes — especially health-related quality of life. Her work is centered on the investigation of the relationship between social capital and health-related quality of life with a focus on underserved and vulnerable populations such as immigrants and children. The techniques that she has used include mixed methods, structural equation modeling, multilevel modeling, and Rasch analysis. In 2008 and 2013, she received an Award of Excellence from the International Society for Quality of Life Research in recognition of superior achievements for her work related to health-related quality of life. In 2016, she received an Award of Excellence for the best methodological paper published in *Gac Sanit* for her work related to the measurement of social capital. In 2018, she was nominated as outstanding reviewer for the journal *Health & Place* and served as an academic guest editor for *Plos One*.

**Wenbo Yu, PhD**  
**Research Assistant Professor**  
**Department of Pharmaceutical Sciences**

Yu received a PhD in physics from the National Laboratory for Physical Sciences at the Microscale (Hefei) in China. He then completed a postdoctoral fellowship in the Department of Pharmaceutical Sciences at the University of Maryland School of Pharmacy, where he later joined the department as a research assistant professor. Yu has more than 15 years experience in the field of

computational chemistry. His research focuses on the development and application of computational methods to study protein-protein and protein-small molecule complex systems, their conformational changes, interaction profiles, and thermodynamic properties. Yu collaborates with experimentalists on the study of new therapeutic targets, improving drug performances and exploring structural level behaviors of drugs and macromolecules using computer-aided drug design approaches. He has joint appointments as a fellow at the Institute for Bioscience and Biotechnology Research and as a member of the Center of Biomolecular Therapeutics at the University of Maryland School of Medicine.

Loyal donors provide the foundation for the School of Pharmacy's success.

Thank you to everyone — our alumni, faculty, staff, and friends — who has invested in the University of Maryland School of Pharmacy.

**LEGACY COUNCIL**

The Legacy Council of the University of Maryland acknowledges those who have made generous contributions to the School of Pharmacy through their estate plans.

Anyone who has made such a gift is eligible for membership in the Legacy Council. To qualify, simply provide the School of Pharmacy's Office of Development and Alumni Affairs with documentation of the gift or a copy of the relevant document in which the School is named as a beneficiary ([www.umbfplannedgiving.org](http://www.umbfplannedgiving.org)). For additional information about membership in the Legacy Council and estate planning, please contact the Office of Development and Alumni Affairs at 410-706-5893 or email [ggriffith@rx.umaryland.edu](mailto:ggriffith@rx.umaryland.edu).

**DAVID STEWART ASSOCIATES**

In the mid-1980s, several dedicated alumni and friends established a premier giving society, the David Stewart Associates (DSA), to fund Schoolwide initiatives that would propel the University of Maryland School of Pharmacy nationally as a leader in pharmacy education. This leadership giving society honors David Stewart, America's first professor of pharmacy and a founder of the University of Maryland School of Pharmacy, who symbolized a passion for excellence and commitment to pharmacy education.

**The founding members of the DSA are:**

This core group of philanthropists has inspired other donors to follow their lead. Today DSA membership has grown to create a solid base of private support for the School's efforts to advance pharmaceutical education, practice, and science. To join this prestigious group of alumni and friends, or for more information on giving to the School, please contact the Office of Development and Alumni Affairs at 410-706-5893 or email [ggriffith@rx.umaryland.edu](mailto:ggriffith@rx.umaryland.edu).

The University of Maryland School of Pharmacy appreciates the financial support of the following individuals and organizations during the period July 1, 2016, to June 30, 2017.
