

INTERDISCIPLINARY STRATEGIES *for* MANAGING MATERNAL OPIOID USE DISORDER

TUESDAY, OCT. 1, 2019

8 a.m.-3:30 p.m.

University of Maryland Medical Center
R Adams Cowley Shock Trauma Center
Auditorium Room #T1R18
22 S. Greene St., Baltimore, MD 21201

REGISTRATION IS OFFERED AT NO COST
thanks to funding from the University of Maryland, Baltimore Center for Interprofessional Education.

Treating maternal opioid use disorder (MOUD) in pregnant women requires integration of provider, patient, and health system needs and fostering collaboration among intersecting disciplines for comprehensive management of pregnant and parenting women, often beyond the skillset of any one health care provider.

This one-day workshop is hosted by an interdisciplinary team from the University of Maryland schools of Pharmacy, Medicine, Nursing, Social Work, and Law.

The workshop will:

- ▶ teach integrative and interdisciplinary approaches for the evidence-based care of pregnant and parenting women with OUD
- ▶ provide participants opportunities to learn through interactive teaching strategies, case studies, spotlight presentations, and patient stories.

Students, faculty, researchers, practitioners, and clinicians interested in MOUD are invited to attend.
