

Hey Everyone,

Another budding trash collector here. I spent an hour on my busy street and filled up my bucket, only to meet a sweet neighbor, Charles, who spends his time keeping the other side of the street clean. This is why the picture of my "trash filled" bucket is only half full because he let me empty it in his big can and this what I found on the way home! Great conversation and a new friend.

Superlatives:

Most frequent find: cigarette butts

Worst find: used prophylactic

Largest find: shredded chunks of car bumper

Best find: awesome neighbor

Yep, I also found what I assume to be two pairs of COVID gloves and 1 mask.

Ick,
E
